

**PREPARATION**

Marble finish must be used over the top of Craig & Rose High Performance Enamel Spray  
The pre-painted Craig & Rose Artisan surface must be clean and dry from grease, rust and dirt.  
Protect adjoining surfaces from overspray.

**BEFORE SPRAYING**

Shake can for at least three minutes before use and regularly during use. Lower temperatures and high humidity will slow the drying.

Avoid spraying when air or surface temperature is below 10°C or above 30°C.

**SPRAY APPLICATION**

Hold can upright 15 to 25cm from the surface. To ensure surface compatibility, test spray on an inconspicuous area.

Marble Effect is applied similar to silly string. When painting your item, ensure you start the spray off the edge so that the spray is even before it hits your item.

Apply 1 coat

Dry Time: Touch dry in 24 hours under normal conditions.

Once dry strongly recommend to spray with Craig & Rose Artisan Clear Coat Semi Gloss to ensure finish lasts.

**AFTER SPRAYING**

Prevent blocking by turning the can upside down and spraying until clear gas emerges.

Also wipe front of nozzle clean.

Clean up overspray with water while wet and white spirits when dry.
