DESCRIPTION

Be like the celebs and design your own unique fragrance - name it, register it and wear it!

This experience enables you to create a fragrance that is not just as unique as you, but one that you will love to wear and be complimented on.

Whether you want to add a bit of spice from the orient, stay chilled with the relaxing notes of amber, get romance with rose, or really hot things up with a heady and narcotic jasmine mix, there is something for everyone!

Unlike high street fragrances, you are given the opportunity to see how your fragrance will wear as the day goes on. The experience starts by an explanation of why these changes happen so that you understand how long certain scents will last. It is then time to start the fun part, smelling the 21 amazing blends and creating your signature perfume!

When you have named your beautiful new fragrance, you will then receive a 5ml bottle to compliment it. Then all that's left to do is show it off.

The experience also includes a full membership to The Perfume Studio, which includes registration of your fragrance in their library.
