LOCATION

Bedfordshire, Bedford;

DESCRIPTION

What starts out as an addictive hobby quickly becomes a competitive sport. It's not surprising that clay pigeon shooting is one of the country's fastest growing sports.

A clay pigeon shooting tuition is not just for novices but for regular shooters too. Tutors for novices so that not only is your safety (and others) assured but also so that you can quickly achieve your potential without picking up bad habits.

Many regular shooters, whether you shoot clay targets or game, benefit from occasional lesson too. A combination of a fresh pair of eyes and a professional opinion regularly helps shooters attain that extra few targets or maximise the enjoyment of a day in the field.

You will receive a friendly and professional instruction starting with a safety briefing and explanation of how the guns work, followed by the techniques of the art of shotgun shooting. You will each get 50 shots to master your shooting techniques. Extra clays may be purchased on the day.
