CAUTION: Flip beds use strong gas pistons to aid you in lifting the mattress to access your storage.

Do not attempt to operate the mechanism without a mattress in place. This could cause damage to the frame or potential injury when opening or closing.

Use the strap or handle provided to operate and keep hands and objects away from any of the moving components.

Minimum and maximum weight restrictions are highlighted below. Ensure your mattress

meets this specification. Do not overload the bed frame as this will damage the mechanism.
