BEFORE YOU GET STARTED...

We're confident you'll love your gorgeous new Next furniture. However, it's worth making absolutely certain before you put it all together.
So, let's quickly run through these three steps:

1. COLOUR

Make sure you're happy with the colour
No need to unpack everything, just check the first component.

2. PROTECTIVE PACKAGING

If you're happy, then it's time to get opening! Start by laying everything out on the protective packaging – this will prevent anything getting scratched.

3. PARTS PAGE

Finally, double check you have all the pieces by referencing the parts page of the instructions.

TIPS FOR RETURNS

Not completely happy with the product? No problem.
We just need everything back in the original packaging, so follow the steps below and this will ensure a super-smooth returns process and no delay to your refund.

DO

- Check everything is there (the 'parts page' is a handy checklist).
- Pop all the loose fittings and fixtures into the packaging provided or tie them up in a plastic bag.
- Wrap all the big components back up in the original protective packaging.
- Close up the box and seal it securely (don't be afraid to use plenty of tape).

DON'T

- Leave anything assembled - all components should be dismantled and separately packed.
- Put loose fixtures and fittings straight into the box.
- Throw it back in the box carelessly – as it may get damaged.

Assembly instructions

BEFORE YOU START

Warnings

We suggest you retain these instructions for future reference
Keep fittings out of children's reach and keep children well away from construction area.
This product should only be used on firm level ground
Please periodically check all fittings and re-tighten as necessary
Please do not jump or stand on your bed
Avoid exposing the furniture to excessive heat or direct sunlight as this can cause damage to the materials and deterioration of the colour

Do's

We suggest you spend a short time reading through this leaflet before you start
When you are ready to start, make sure that you have the right tools and plenty of space
Due to the size of the product we recommend that it is assembled in the room intended for use
Unwrap all packaging materials and place the components on a clean surface to protect it from damage,
We recommend that the packaging is used to protect the surfaces during assembly
Carefully check that you have all the parts before beginning assembly
Ensure the product is fully assembled as illustrated and all fixings fully tightened before use. Check fixings regularly to ensure they remain tight
When moving your assembled bed. It is best to lift the bed and never to drag it. Please check that the centre support rail is securely fixed in place
When adjusting the support legs ensure that the foot is set 5-10mm from the floor surface without the mattress in place. When in use the legs will create the required support for the product
Never allow any kind of liquid to remain on your furniture.
Absorption can cause materials to warp or finishes to de-laminate
Wipe occasionally with a soft cloth dampened with water. Then buff with a dry clean soft cloth

Please note:

In case of using wooden frame and wooden centre support rail, below point should be added:
Please check that the centre support rail is securely fixed in place
In case of using metal frame and metal centre support rail with plastic caps, below point should be added:
Periodically check the condition of your bed slats and plastic locating caps to ensure they are in good condition and have not become loose.

Number of people required to assemble

We recommend two people assemble this product.

Time to assemble

45 minutes

6

Once the feet have been assembled and attached,they should be adjusted to ensure they do not touch the floor,(5mm above the floor) to allow for movement once the mattress is placed on the bed frame.

It is important to note that when moving the bed that it is not dragged into its new position to prevent the possiblity of these feet being twisted or angled to one side ,which could lead to the collapse of the centre of the bed.

To move the bed ,remove the mattress and lift the bed into its new position to avoid damage.Ensure the feet are at 90 to the floor before replacing the mattress.
