

BEFORE YOU GET STARTED...

We're confident you'll love your gorgeous new Next furniture. However, it's worth making absolutely certain before you put it all together.

So, let's quickly run through these three steps:

1. COLOUR

Make sure you're happy with the colour

No need to unpack everything, just check the first component.

2. PROTECTIVE PACKAGING

If you're happy, then it's time to get opening! Start by laying everything out on the protective packaging – this will prevent anything getting scratched.

3. PARTS PAGE

Finally, double check you have all the pieces by referencing the parts page of the instructions.

TIPS FOR RETURNS

Not completely happy with the product? No problem.

We just need everything back in the original packaging, so follow the steps below and this will ensure a super-smooth returns process and no delay to your refund.

DO

- Check everything is there (the 'parts page' is a handy checklist).
- Pop all the loose fittings and fixtures into the packaging provided or tie them up in a plastic bag.
- Wrap all the big components back up in the original protective packaging.
- Close up the box and seal it securely (don't be afraid to use plenty of tape).

DON'T

- Leave anything assembled - all components should be dismantled and separately packed.
- Put loose fixtures and fittings straight into the box.
- Throw it back in the box carelessly – as it may get damaged.

When you are ready to start, make sure that you have the right tools and plenty of space.

Unwrap all packaging materials and place the components on a clean surface to protect it from damage,
We recommend that the packaging is used to protect the surfaces during assembly.

Carefully check that you have all the parts before beginning assembly.

Due to the size of this product we recommend that it is assembled in the room intended for use.

Ensure the product is fully assembled as illustrated and all fixings fully tightened before use.

Wipe occasionally with a soft cloth slightly dampened with water. Then buff with a dry clean soft cloth.

Wood will mellow and change colour over time, we recommend that ornaments and items placed on the surface are moved regularly for the first few months to prevent uneven mellowing.
