IMPORTANT INFORMATION

This product contains Safety glass (also known as Toughened glass). If broken, it is designed to break safely and shatter into many small pieces rather than large shards.

However, please note that the edges of these pieces can still be sharp, so care is needed when handling them.

Safety glass is stronger than regular glass to better withstand the wear and tear of everyday use, but some basic precautions need to be taken to prolong its life:

DO:

Always use a coaster or table mat to protect the glass from very hot or cold cups, glasses or plates etc.

Take care when placing items on the glass surface so as not to damage it.

Take particular care not to damage the edge of the glass surface

- this type of damage can cause the whole panel to shatter.

If you notice damage on the edge of the glass, contact a local glazier for advice.

DO NOT:

Place heavy items on the glass surface.

Position the unit near direct heat (e.g. in front of a radiator or other strong heat source) as this can cause internal stress in the glass and cause it to shatter.

Use it as a chopping board.

Strike the glass with hard or pointed objects.

CARE INSTRUCTIONS:

To clean the glass, use a proprietary glass cleaner and a soft cloth. Do not use abrasive cleaners as they can damage the finish of the glass.
