BEFORE YOU START

Number of people required to assemble

Two people are required to assemble this item

Time to assemble : 90 minutes

not supplied

not supplied

Do's

We suggest you spend a short time reading through this leaflet before you start.

When you are ready to start, make sure that you have the right tools and plenty of space.

Unwrap all packaging materials and place the components on a clean surface to protect it from damage.

We recommend that the packaging is used to protect the surfaces during assembly.

Carefully check that you have all the parts before beginning assembly.

Due to the size of the product we recommend that it is assembled in the room intended for use.

Ensure the product is fully assembled as illustrated and all fixings are fully tightened before use.

Wipe occasionally with a soft cloth slightly dampened with water. Then buff with a dry clean soft cloth.

Don'ts

Do not drag or pull your furniture.

Do not use silicone based furniture polish. Silicone in furniture polishes can break down the finish.

Never allow any kind of liquid to remain on your furniture.

Absorption can cause wood to warp or finishes to de-laminate.

Do not place hot items (e.g. hot drinks) directly on to the wood surface.

Please make sure you use a placement or coaster.

PRODUCT SUPPLIED WITH WALL FIXING BRACKET/S

Missing parts

If you are missing any fixtures and fittings for your product.

Please contact our customer service team on 0333 777 8999 and they will be happy to arrange for a replacement to be sent to you free of charge.

Warnings

We suggest you retain these instructions for future reference.

Keep fittings out of children's reach and keep children well away from the construction area.

This product should only be used on firm, level ground.

Please periodically check all fittings and re-tighten as necessary.

Please do not sit or stand on your furniture.

Avoid exposing the furniture to excessive heat or direct sunlight as this can cause deterioration of the colour.

Unwrap all packaging materials and place the components on top of the carton box or on a clean floor to protect it from damage.

Home service technicians

If you have a fault with your product please contact our customer service team on 0333 777 8999. If you have had the product for 28 days or less you may be offered a replacement, refund or for a fully trained home service technician to visit your home to assess the fault and repair the product where possible.

If you have had the product for more than 28 days we will send an independent home service technician to review and repair the product where possible and recommend further action.

TITUS TIGHTENING INSTRUCTIONS

Line up the arrow on the CAM with the PIN.

Push the pins into the holes in the panel to be joined.

Make sure there is no gap between the panels.

Use a cross-point screwdriver (PH2 or PZ2 is ideal) to tighten the cams and lock the panels together.

The panels are locked when each cam is turned to between 1/2 and 2/3 of a full turn (Maximum rotation)

1

Diagram 1 shows two rectangular panels, labeled 17 and 18, positioned horizontally. Panel 17 is in the foreground, and panel 18 is slightly behind it. Both panels have four circular holes along their right edge. Four pins, labeled 'D', are shown being inserted into these holes. Two pins are shown for each panel, one at the top and one at the bottom of the hole pairs. The pins are cylindrical with a slightly wider base.

D	8 x 30mm	12

x3

2

Diagram 2 shows the same two rectangular panels, labeled 17 and 18, positioned horizontally. Four clips, labeled 'C', are shown being inserted into the top edge of the panels. Two clips are shown for each panel, one on the left and one on the right. A circular inset provides a close-up view of a clip 'C' being inserted into a hole on the top edge of a panel. The clip has a U-shaped profile with a small tab.

Warning

For floor standing units intended to be attached to the building: WARNING In order to prevent overturning this product must be used with the wall attachment device provided. Move unit into desired position. Secure the “L” metal bracket to the wall with an appropriate screw and wall plug for your wall type (not provided).
Warning: Always ensure intended wall area to be drilled is free from hidden electrical wires, water and gas pipes.
NB: Wall fixings are not included-Please source suitable fixing for your wall type.
If in doubt please consult a qualified trades person.

Wall fixing - if in doubt seek professional advice

Wood
If fixing to wood make sure that it isn't chipboard as screws can easily pull away from the core structure

Brick or Masonry
Use an appropriate wall plug provided you are sure your wall is sound.

Cavity wall
Special toggle wall plugs are needed. Seek expert advice.
