# SAFETY AND CARE ADVICE

## IMPORTANT

Please read these instructions fully before starting assembly.

Please read this sheet prior to assembly to familiarize yourself with the various stages of construction.

Retain these instructions for future use.

Carefully open the pack supplied and check the contents against the parts and fittings check list. Do not destroy any of the packaging until you are certain that you have all the necessary parts for the assembly.

## CAUTION

There are small components used in the construction of this unit. These loose items should be kept away from young children whilst assembly your unit to avoid the danger of choking.

## INFORMATION

- We recommend that this Unit is assembled in the room intended for use.
- When you are ready to start, make sure that you have the right tools, plenty of space and a clean, dry area for assembly.
- Unwrap all packaging materials and place each component on top of the carton box or on a clean floor to prevent it from scratching.
- Check the pack and make sure you have all the parts listed.
- Ensure that this product is fully assembled as illustrated before use.
- Check all screws or bolts are tightened and inspect regularly.
- Tools are not included unless specified in the parts list.
- This product is suitable for children in the age range of children for which the product is designed.
- This product is suitable for children aged 13+.

## WARNINGS

- This product should only be used on a firm and level floor.
- Keep small parts out of reach of children.
- Make sure the legs/base remain in contact
- DO NOT use power tools to construct this product.
- DO NOT tighten screws until parts are assembled or as advised in this guide.
- DO NOT over tighten screws or bolts.
- DO NOT use this product if parts are missing, damaged or worn.
- DO NOT climb, sit or stand on the product.
- The product must be used with the wall straps provided to avoid accidents and possible fatal injuries if the item falls over or tips over during use.
- If wall fixings are supplied, always ensure the wall area to be drilled is free of electrical wires, water and gas pipes. The wall fixing supplied are suitable for solid walls. Other types of suitable fixings must be obtained separately. If in doubt, please consult a qualified tradesperson.
- Assembly to be carried out by a competent adult only.

## CARE AND MAINTENANCE

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal center.

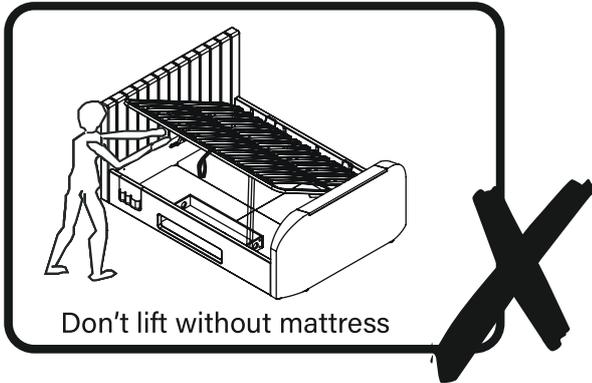

## HANDY HINTS

- Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts.
- Regularly check and ensure that all bolts and fittings are tightened properly.

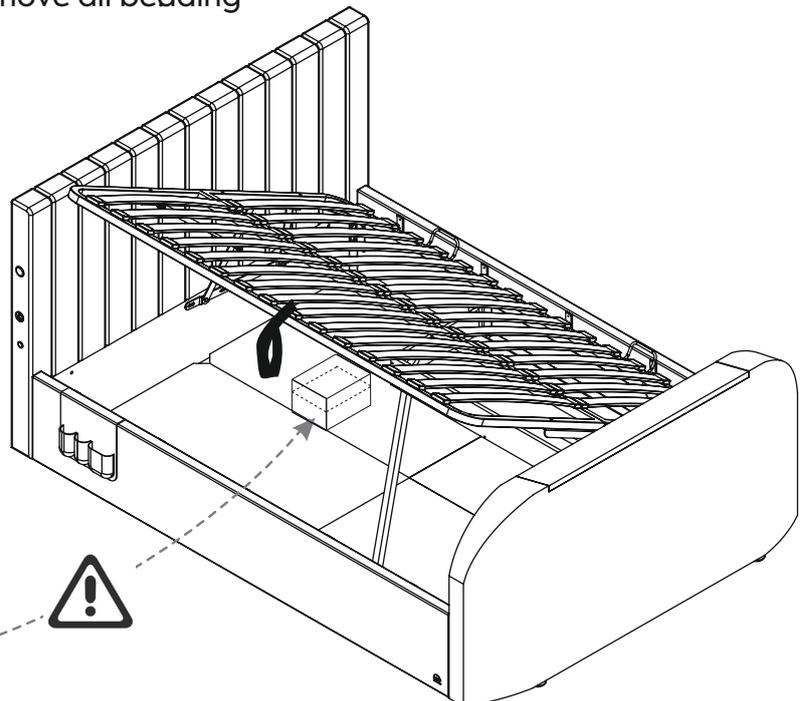

## Recommended minimum & maximum weight of the mattress.

Bed	Bed Size	Min Weight (kg)	Max Weight (kg)
Maisie Metal Slat Frame	Small Double	20	50
	Double	20	50
	King	20	50

## IMPORTANT SLAT FRAME SAFETY STAY WARNINGS

- Use caution when operating, always use the handle when lifting.
- Note: This bed uses a pressurised mechanism.
- To be operated by adults only.
- Please ensure that children and pets are kept away from the bed when operating the lift mechanism.
- Keep children and pets away from the storage area.
- Do not overload the internal storage base.
- Do not stand inside the internal storage area of the bed.
- Before removing the mattress secure the frame to ensure it does not open unexpectedly.
- Do not attempt to lie on the mattress when the ottoman is in the raised position.
- When lifting the ottoman, remove all bedding

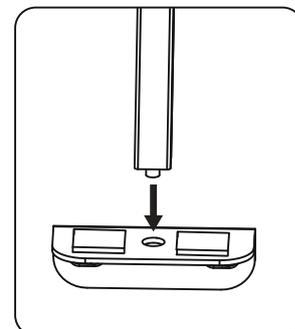

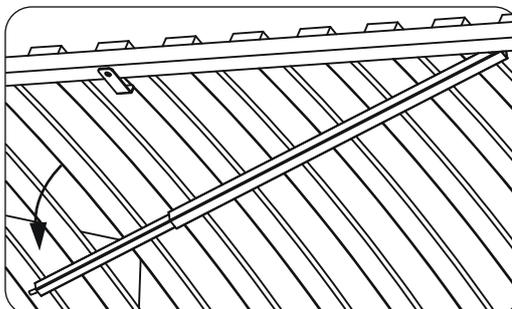

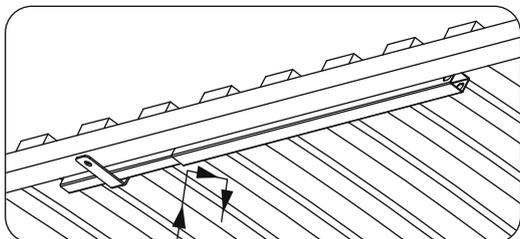

Note: Be very careful what you store under the bed - the top of an item, like a suitcase or a box, must not touch the slats or they may be damaged.  
Maximum storage height is 280mm.

## IMPORTANT SLAT FRAME SAFETY STAY WARNINGS Cont.

### **Slat Frame Safety Stay**

For safety during lifting of the frame, always ensure the stay is engaged before accessing the storage area.

1. Always raise the ottoman slat-frame to it's highest position before using the storage area.  
Locate the end of the stay and insert into the fixed retaining bracket on the bed frame.
2. When you are ready to lower the ottoman platform, return the stay to its original parking position.
3. Always ensure that the stay is in position when the ottoman is open, this prevents injury.

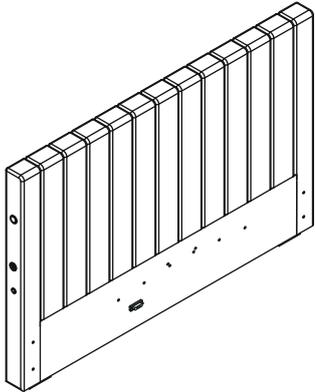

### **WARNING! Risk of Entrapment**

---

- The pistons on the ottoman bed frame can support a maximum load (evenly spread) as indicated in the Minimum and Maximum load table on Page 1 of this manual.
- Overloading the sleeping platform may contribute to damage to the product resulting in potential serious injury.
- Do not sit on the mattress whilst the platform is in motion or is in the raised position.
- Users should only get in and out of bed when platform is in the horizontal position.

## FITTINGS FOR SLAT FRAME SAFETY STAY

6: M8\*16 x1

7: M8\*45 x1

8 x 2

Prepare headboard & footboard choosing from which side to lift up the ottoman.

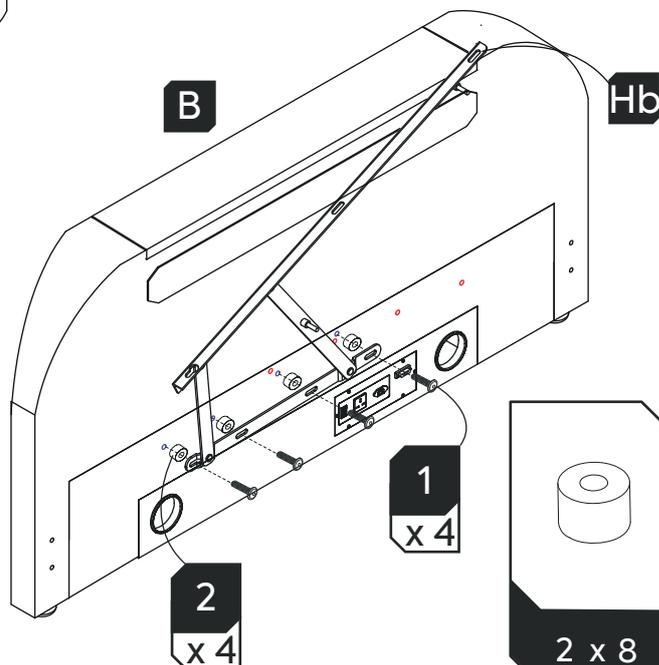

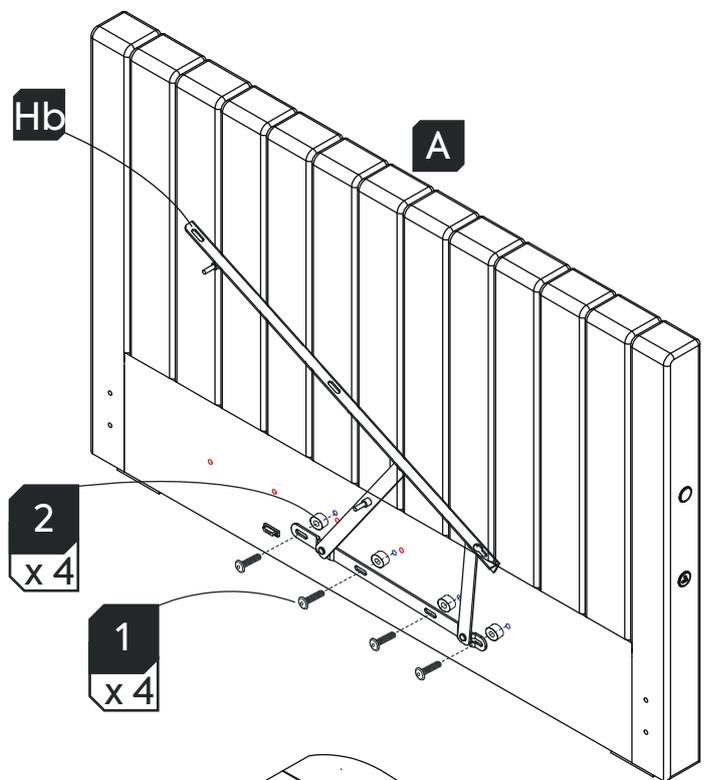

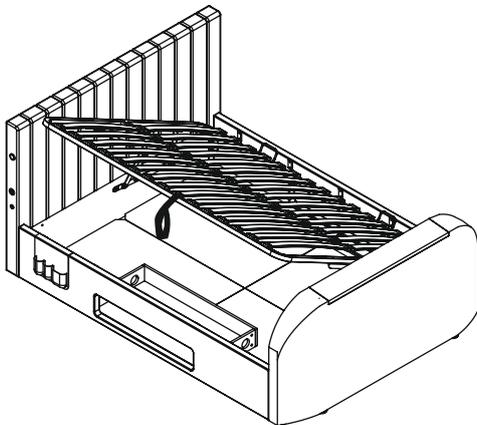

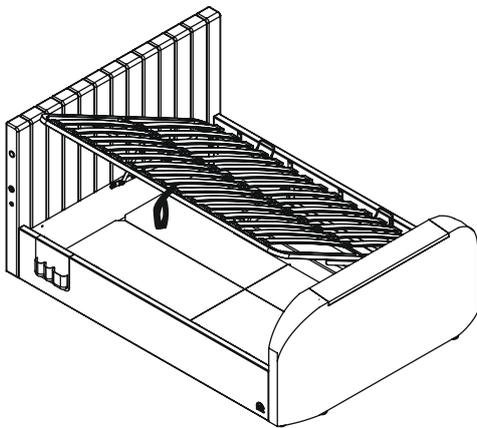

# 10

Follow these instructions if you want to lift the frame up from the LEFT side.

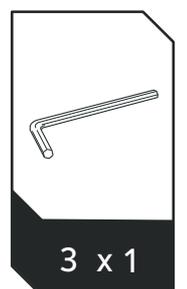

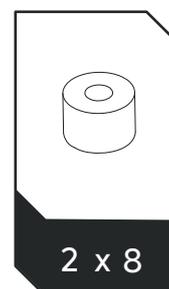

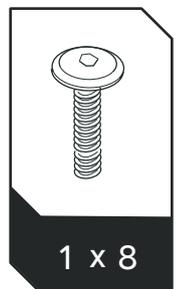

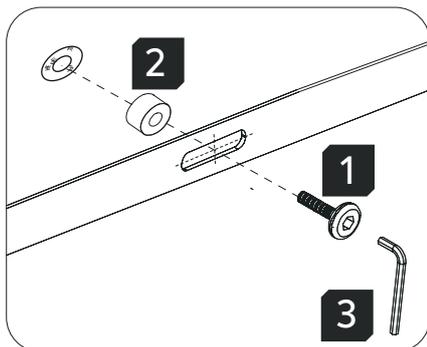

Check this diagram and if access is needed from the left side, fit both lift mechanisms to right side of the headboard & footboard.

Bolt into the holes marked (R) with blue labels.

The mechanisms are labeled H(a) & H(b). Please carefully follow the diagram below.

Align with the Blue labels

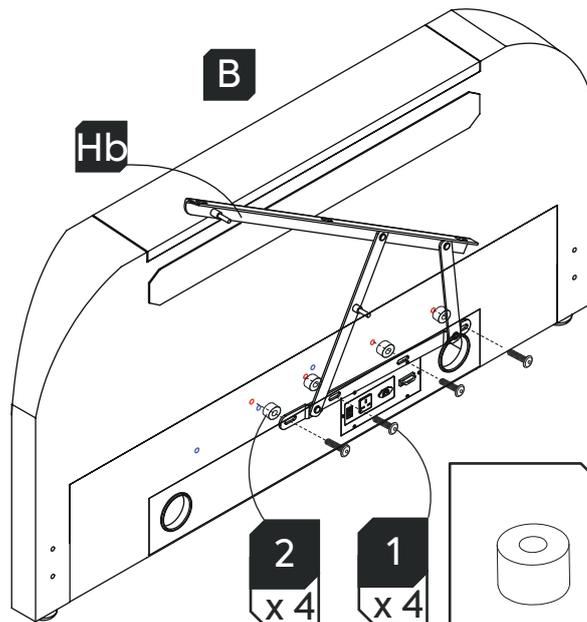

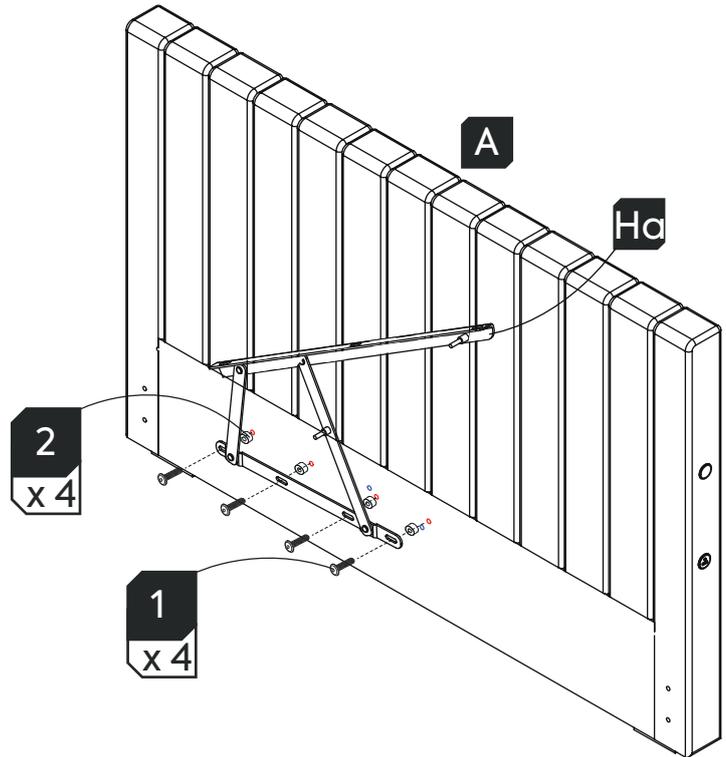

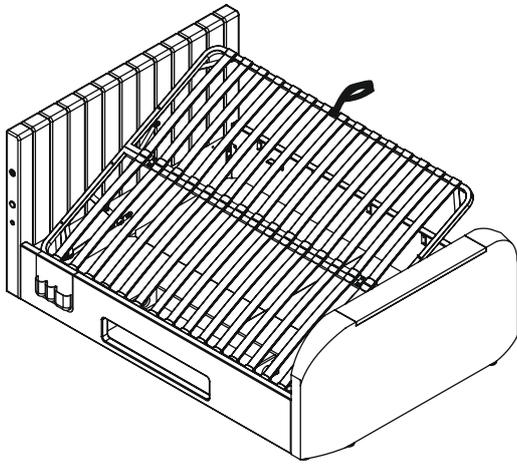

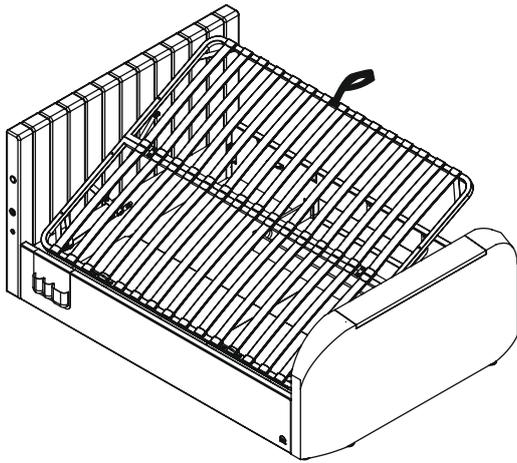

# 10

Follow these instructions if you want to lift the frame up from the RIGHT side.

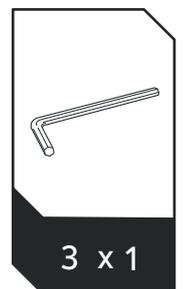

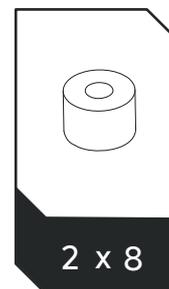

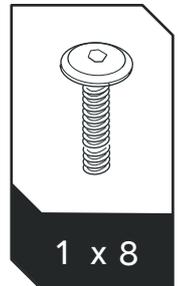

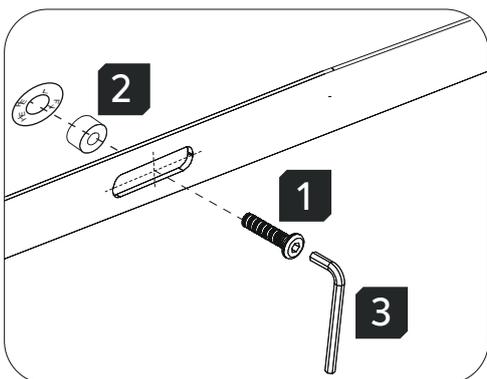

Check this diagram and if access is needed from right side, fit both lift mechanisms to left side of the headboard & footboard.

Bolt into the holes marked (L) with red labels.

The mechanisms are labeled H(a) & H(b) please carefully follow the diagram below.

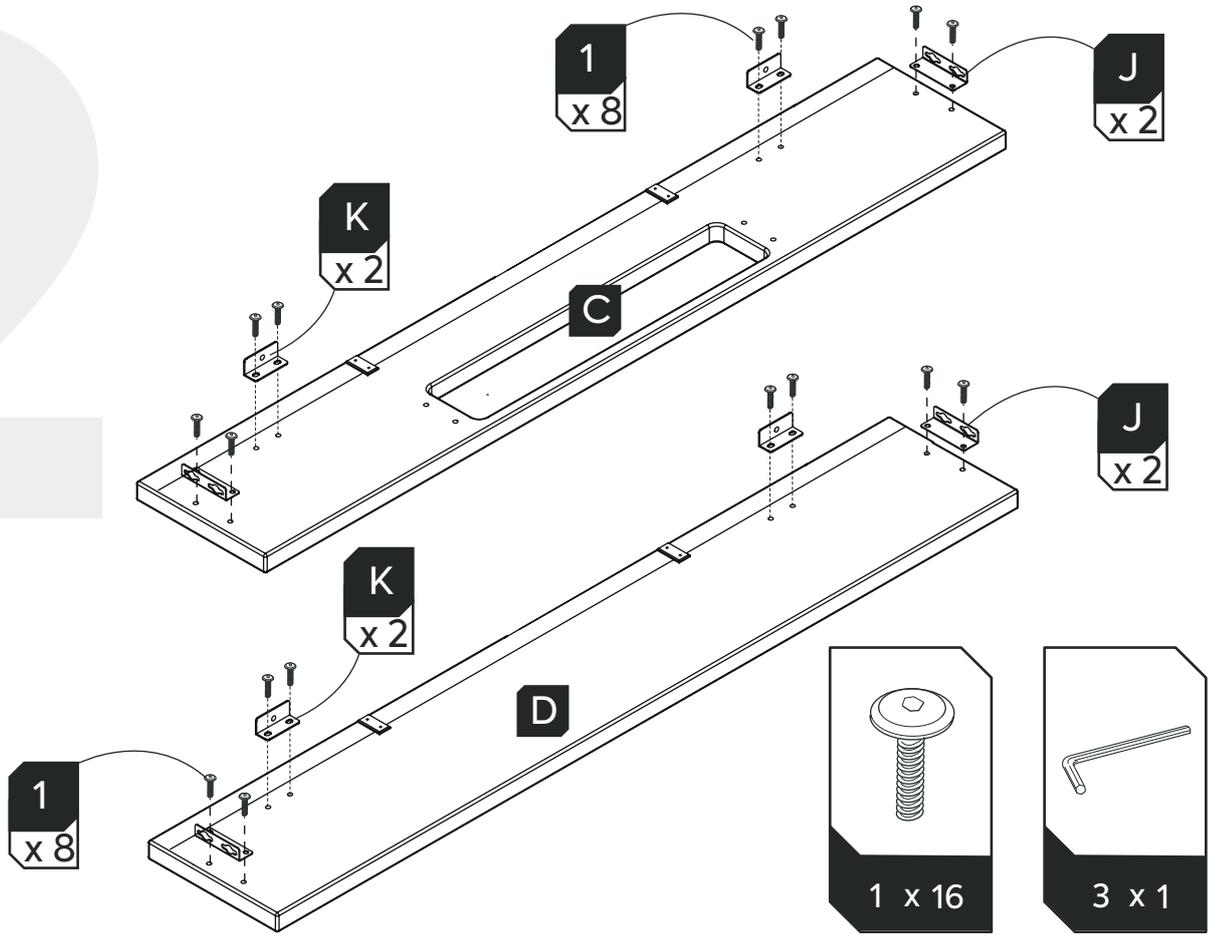

Align with the Red labels

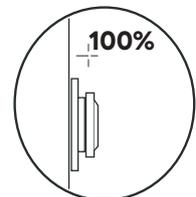

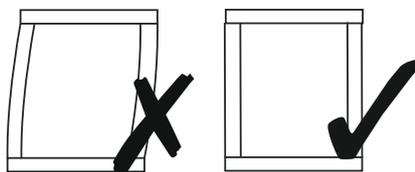

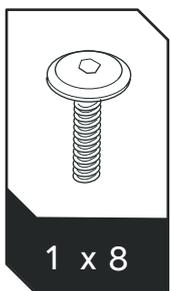

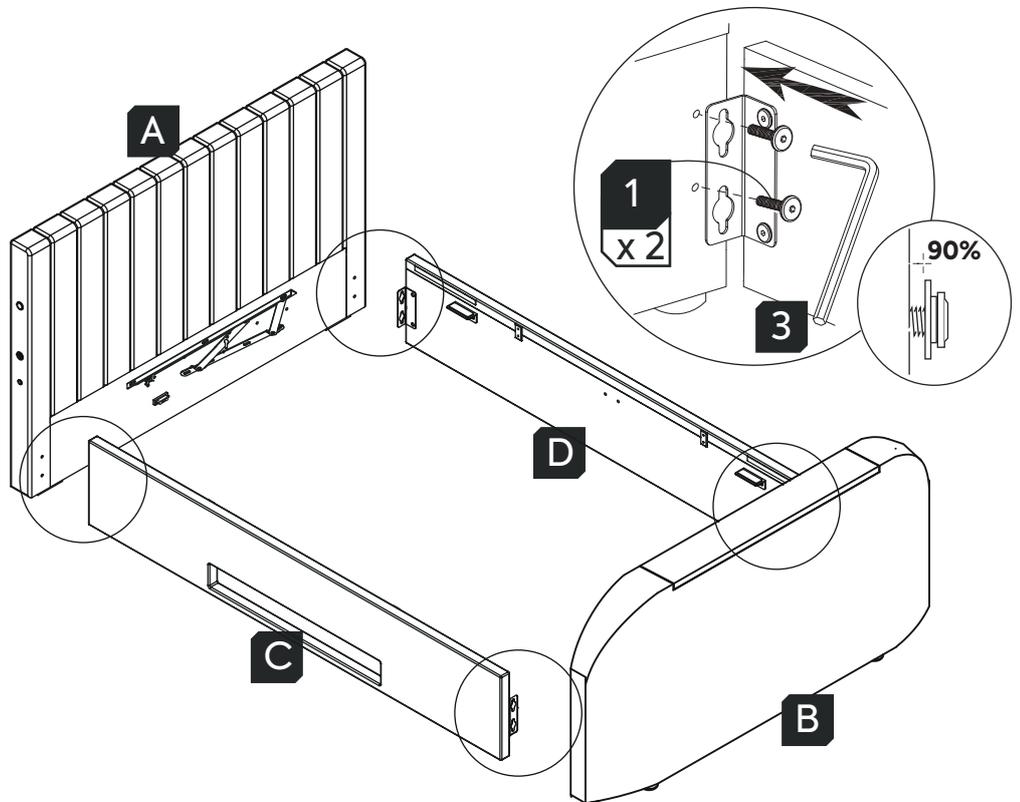

# 2

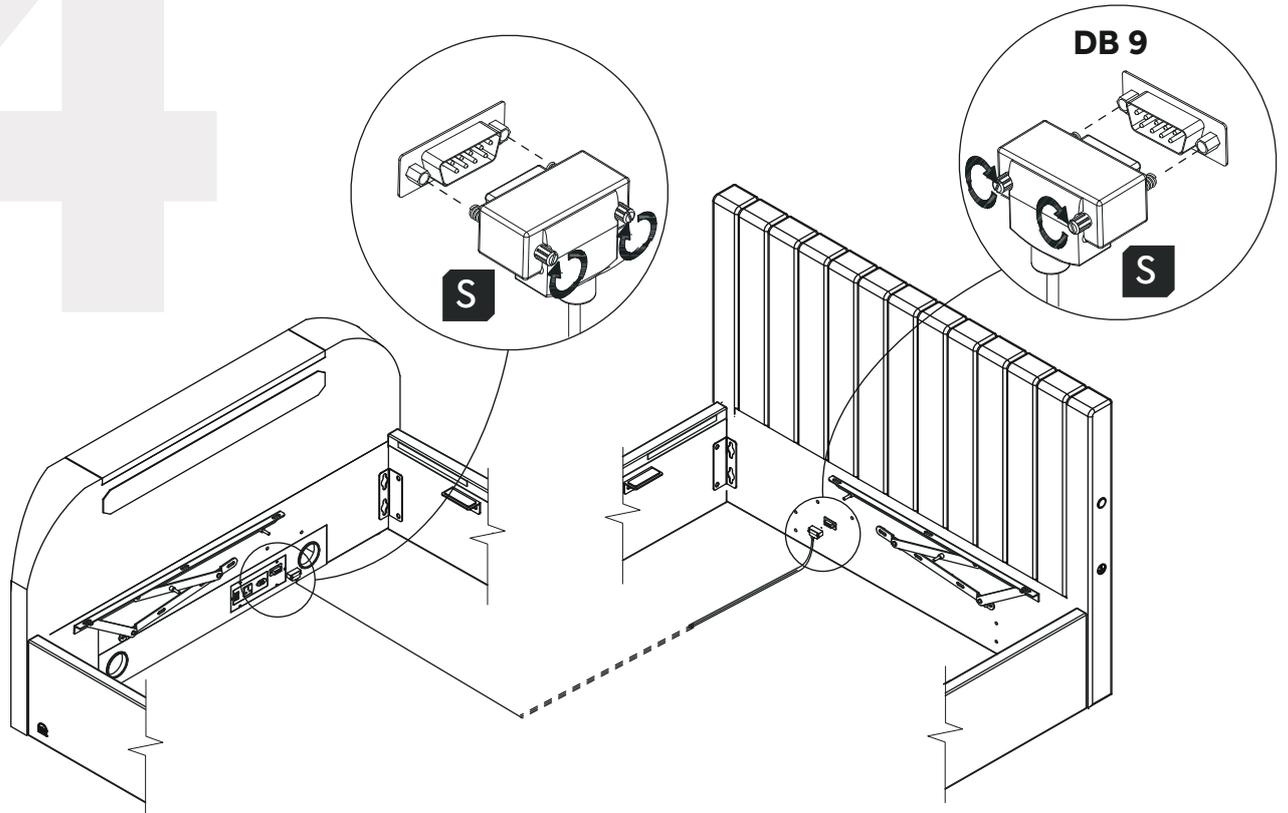

# 3

# 4

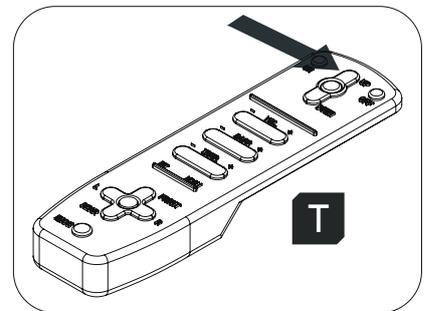

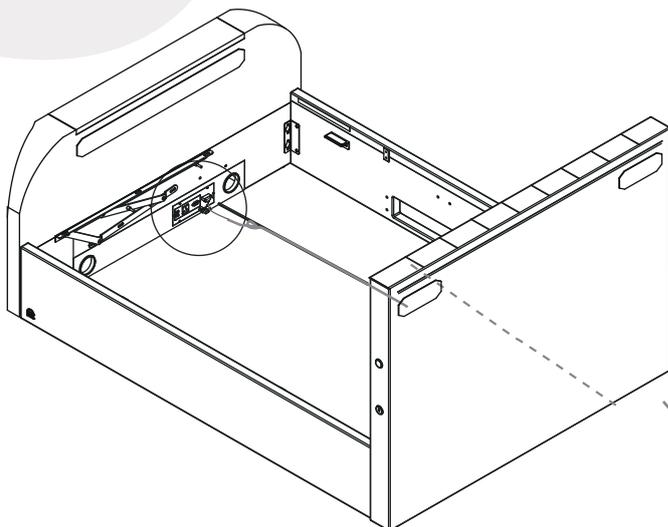

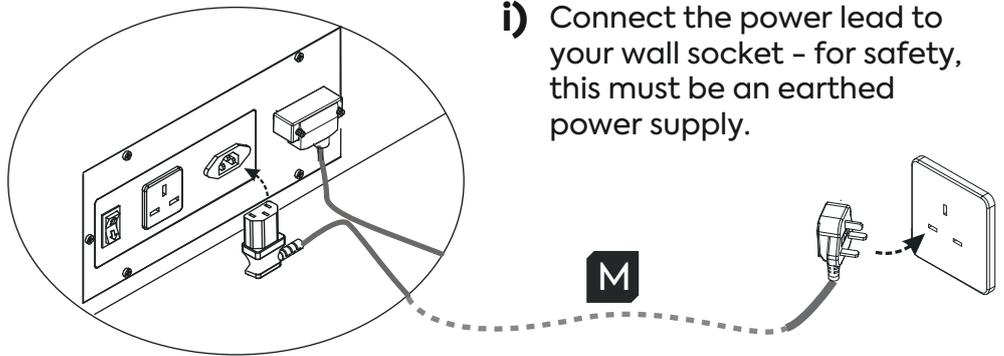

Connect the long cable (S) between DB 9 sockets on the head & foot boards. In the next Step 5, connect the mains power cable (M) as shown. Make sure the two cables are laid neatly on the floor. These cables will be covered by the baseboards later - see Step 21. Take care the cables don't get trapped under the baseboard feet.

## Connect the mains power lead (M)

# 5

- i) Connect the power lead to your wall socket - for safety, this must be an earthed power supply.

- ii) Turn on the power to the system - please refer to the RC Operation Guide on Page 25. On the RC, press the UP button to raise the TV lift.

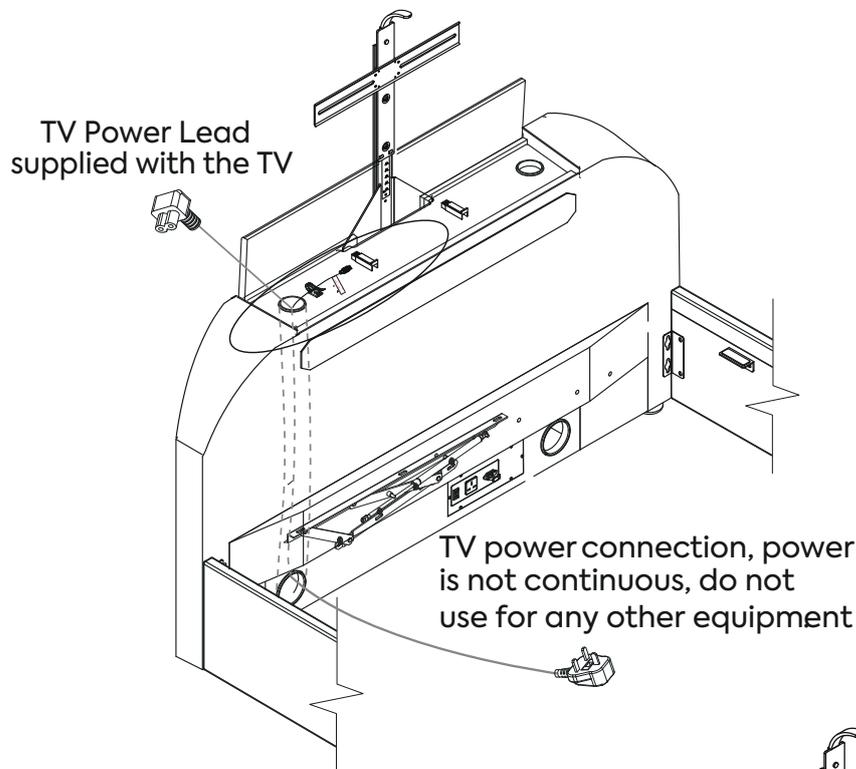

# 6

**Note: For illustration purposes only, TV connections may vary.**

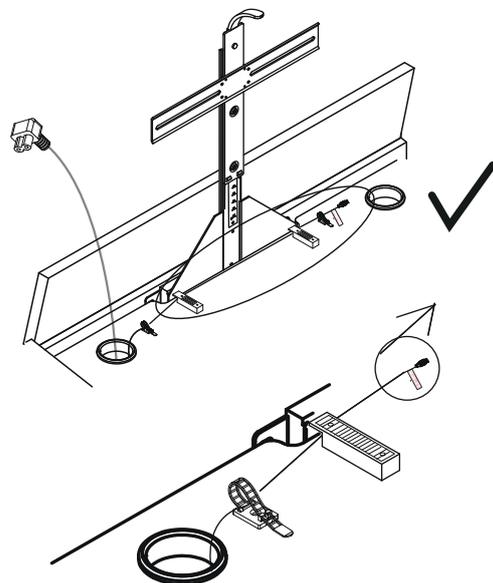

Tip: Before fitting the TV, push any leads through each duct from the top choosing the best side to use depending on where the connection ports are on back of your TV. Never cross leads from one side to the other unless as shown in the instruction below.

## HDMI PLUG FOR CONNECTION TO HDMI ARC SOCKET ON THE SIDE OF THE TELEVISION MARKED: HDMI (ARC)

If the HDMI (ARC) socket is on RIGHT SIDE, looking at the back of the TV, the plug is in the correct position.

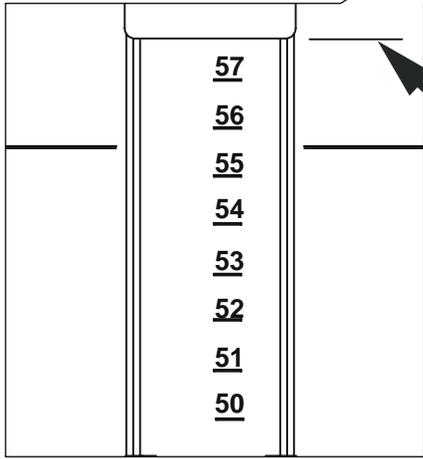

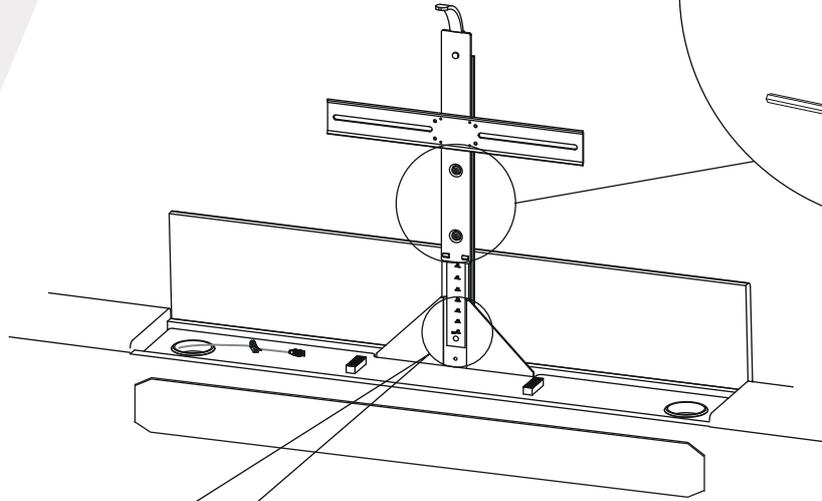

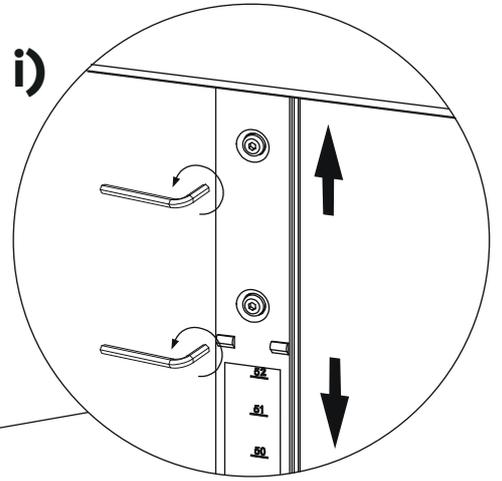

If the HDMI (ARC) socket is on the LEFT SIDE, looking at the back of the TV, pull it across as shown.

ii)

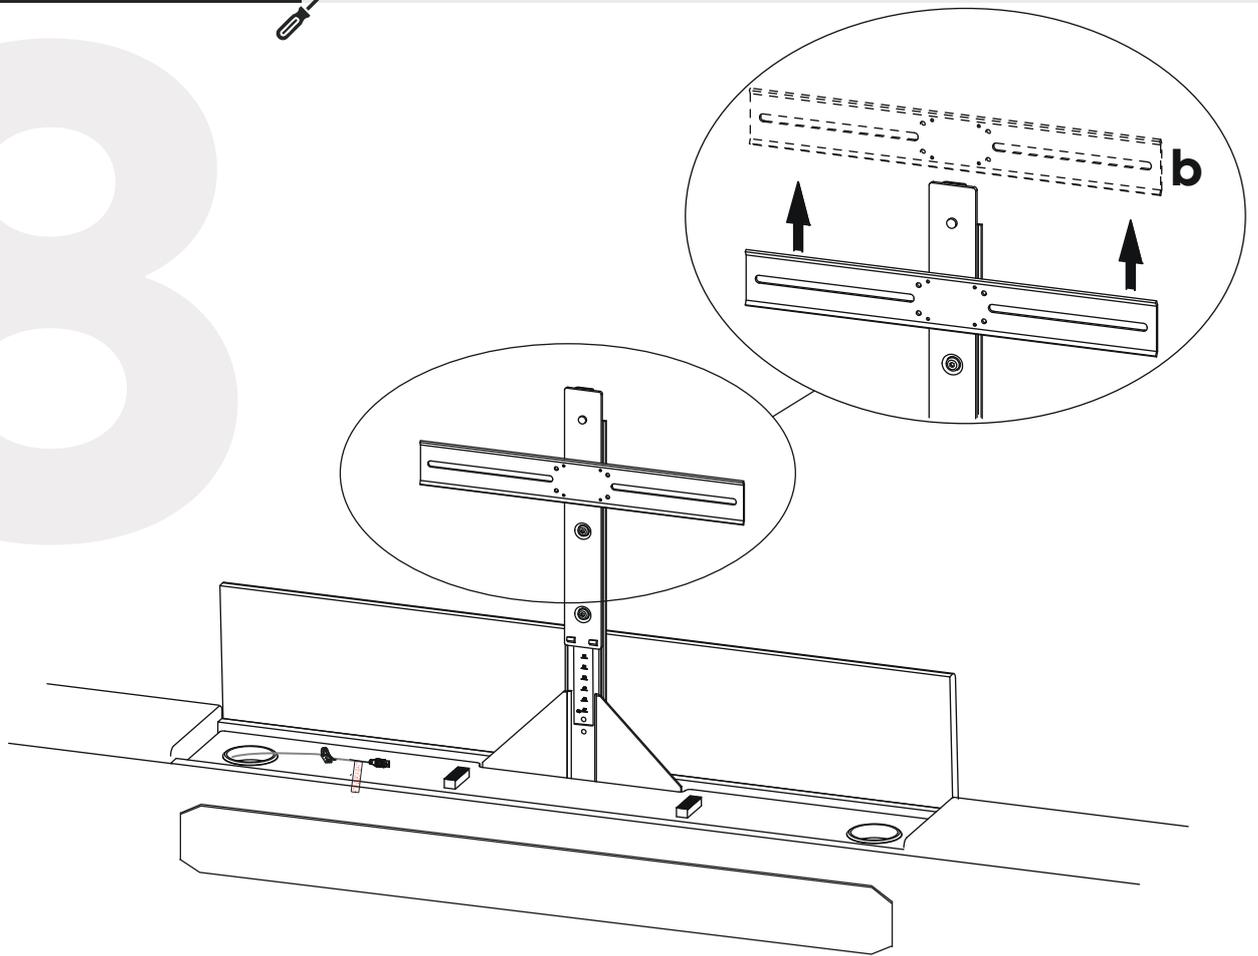

iii)

iv)

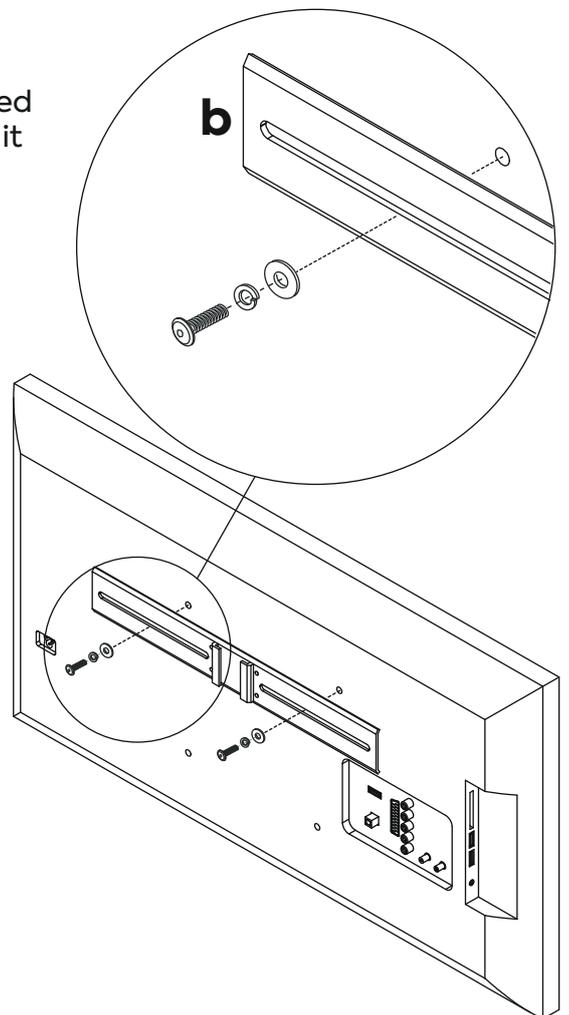

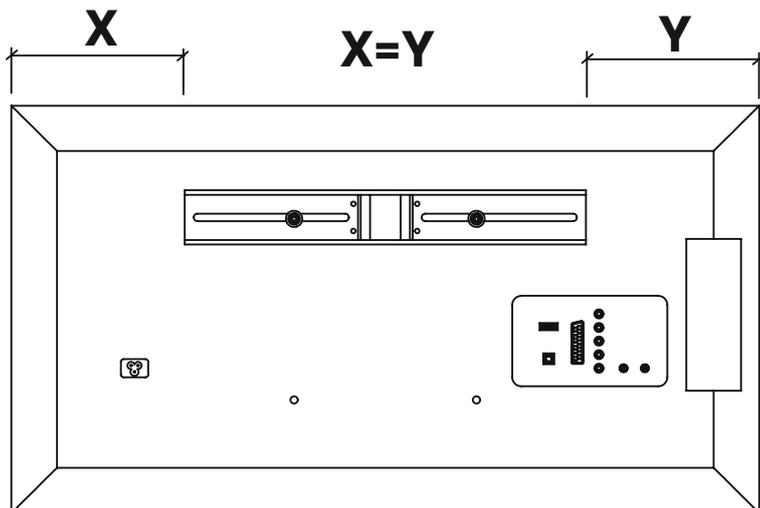

# 8

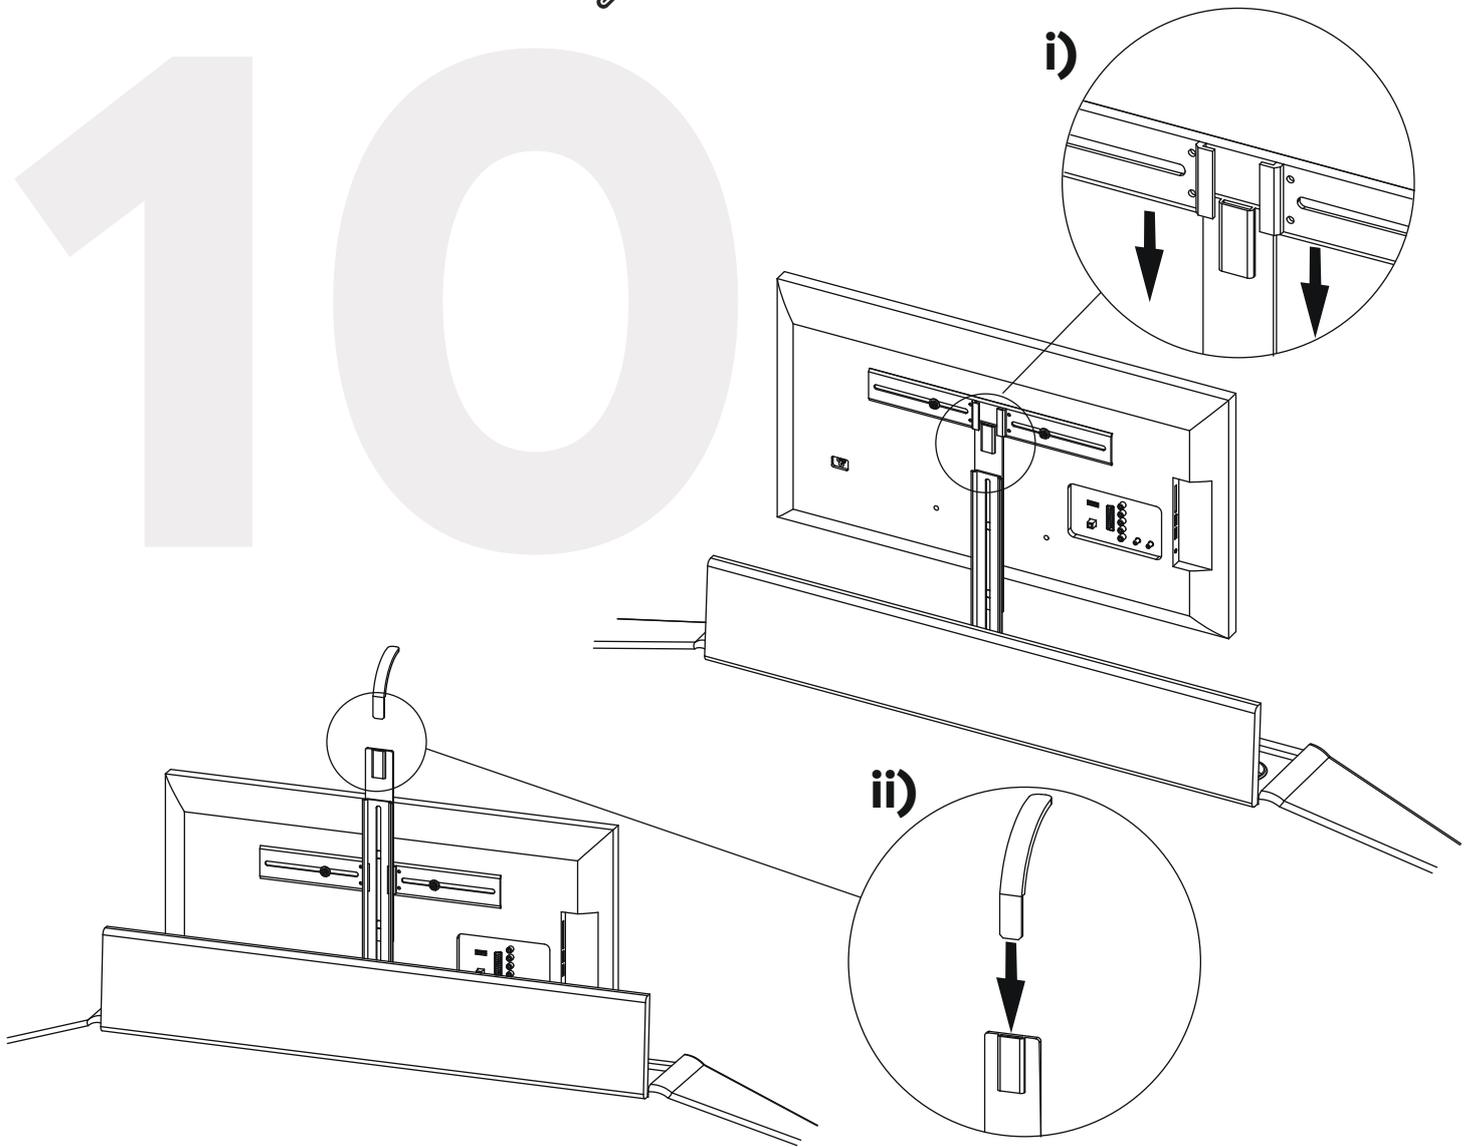

# 9

Use the hardware supplied with the television, to fix it to the TV bracket.

# 10

# 11

## **Before connecting the television, please read the important information below.**

The bed is fitted with a real 5.1 six channel surround sound amplifier that should be connected to the television fitting the HDMI plug into the HDMI ARC socket on the side of the TV.

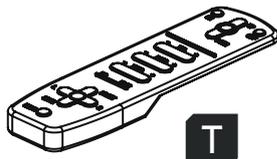

The HDMI ARC connection on the TV is the OUTPUT of audio from television to the amplifier which is then processed and sent by the amplifier to the various speakers. The other HDMI sockets on the TV only accept INPUT signals from the various devices you might connect to, such as SKY, USB, DVD & Gaming consoles etc..

Note that the TV must be transmitting the 5.1 signals from an appropriate audio device to the TV and then each channel is routed to the correct one of the six speakers by the amplifier, this is how surround sound is created.

The amplifier will correctly decode the input signals such as 2.1 Stereo or real 5.1 surround sound as they were recorded and will automatically decode the signals appropriately, depending on the input.

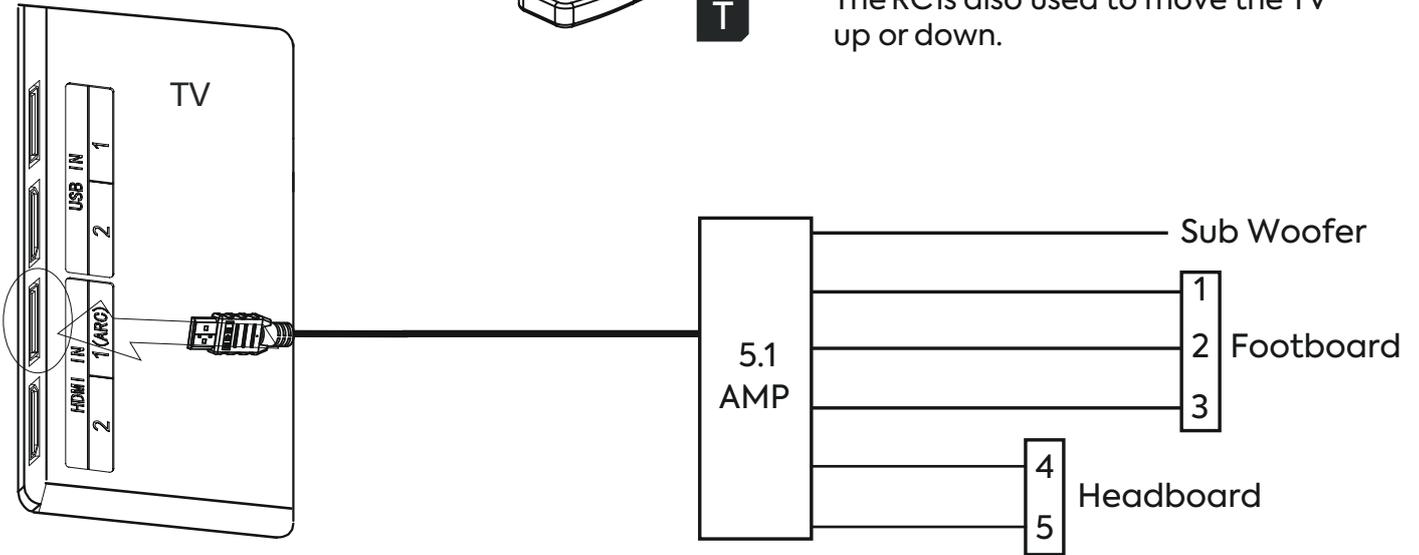

To get the best audio experience when streaming multi-channel or playing a 5.1 Game or movie, please set the TV to the correct 5.1 audio sound output - please read the television user guide for more information.

**Note: For illustration purposes only, TV connections may vary.**

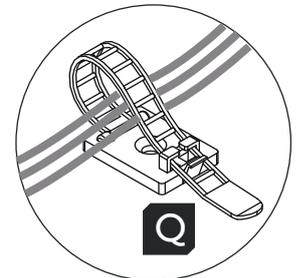

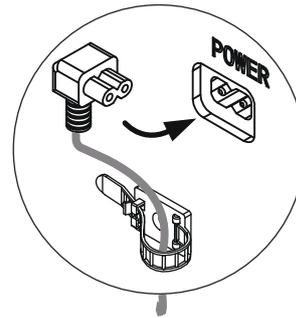

RC controls the 5.1 Surround Sound amplifier, please read the Operation Guide on page 25.

The RC is also used to move the TV up or down.

**TV Power Lead**

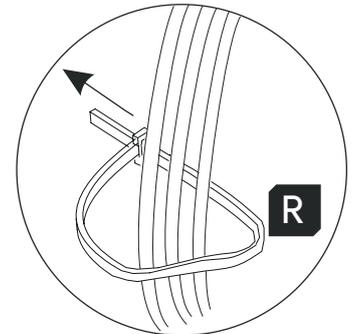

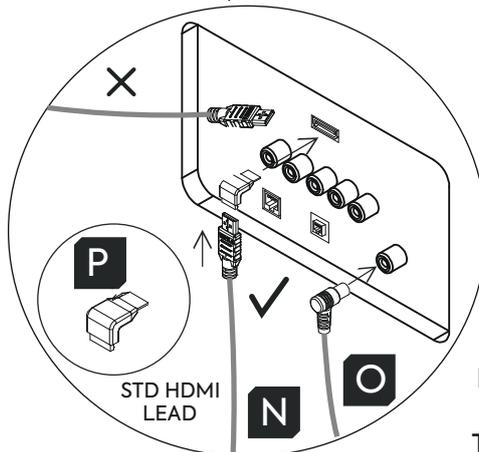

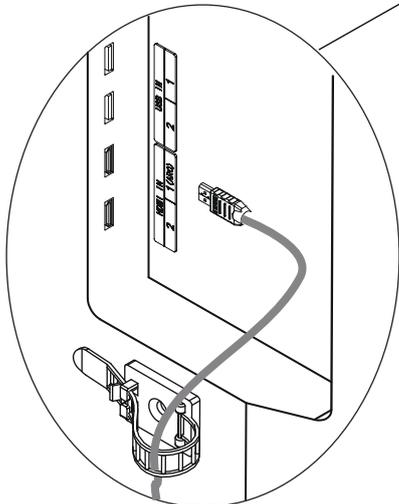

Keep wires tight so they can't get snagged. Peel off cover from cable clips adhere to the back of the TV

HDMI PLUG TO CONNECT TO THE HDMI ARC SOCKET ON THE SIDE OF THE TELEVISION

**PLUG IN- KEEP ALL LEADS TIGHT - USE CLIPS & TIES PROVIDED**

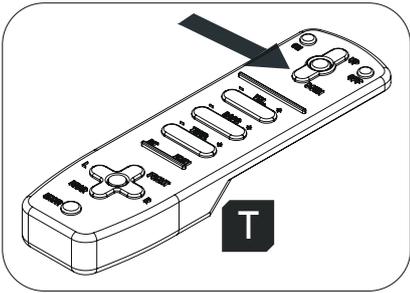

IF A STANDARD HDMI SOCKET IS SITUATED ON THE BACK OF THE TV, PLEASE USE THE HDMI 90° ADAPTER (P)

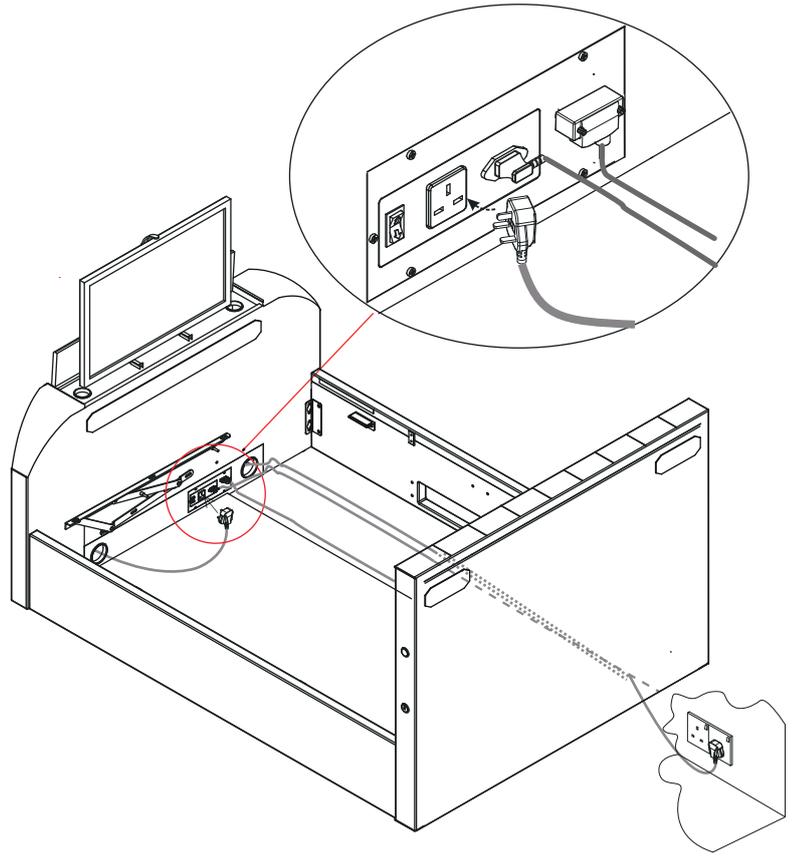

# 12

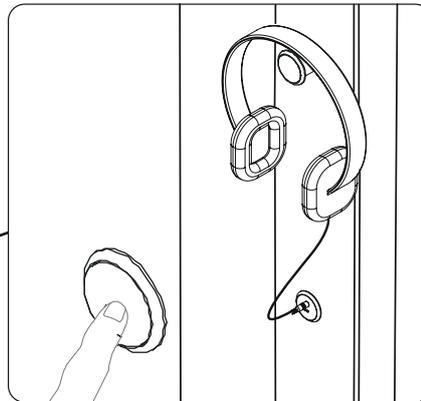

Plug in the TV power lead

On the RC, press the DOWN button to lower the TV lift.

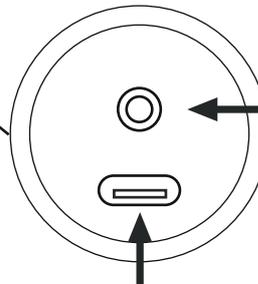

**HEADPHONE HANGER**

**MODULE FITTED TO EACH SIDE OF THE HEADBOARD**

**LED APP CONTROLLER**

**TYPE C / Headphone**

**HEADPHONE SOCKET**

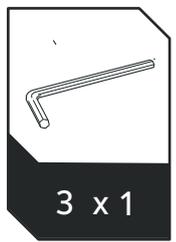

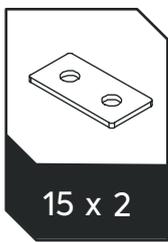

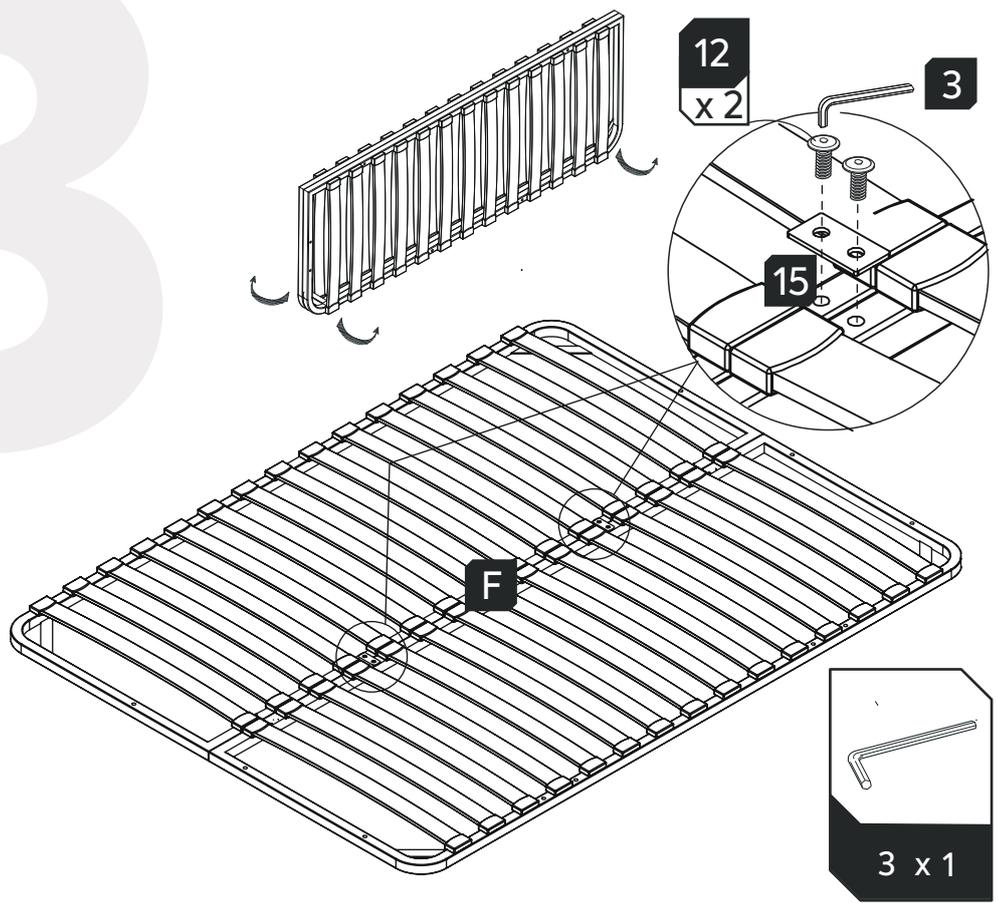

PLUG A 3.5mm HEAD-PHONE JACKPLUG INTO THIS SOCKET AND SOUND FROM MAIN SPEAKERS IS CUT OFF.

**TYPE-C CHARGING SOCKET**

PUSH A TYPE 'C' USB PLUG INTO THIS SOCKET TO CHARGE ANY SUITABLE DEVICE -.NOTE THIS USB IS FOR CHARGING ONLY, IT CANNOT PLAY MUSIC OR VIDEOS THROUGH THE SYSTEM.

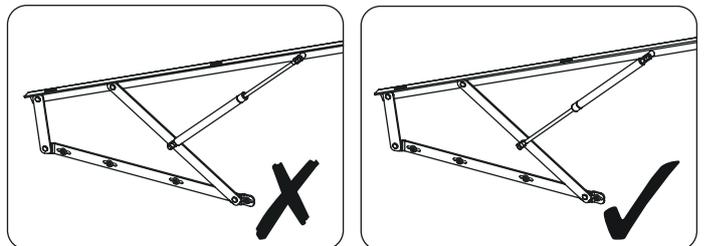

# 13

## Prepare the slat-frame (F)

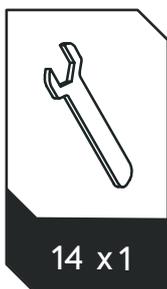

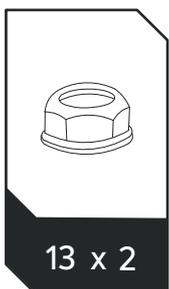

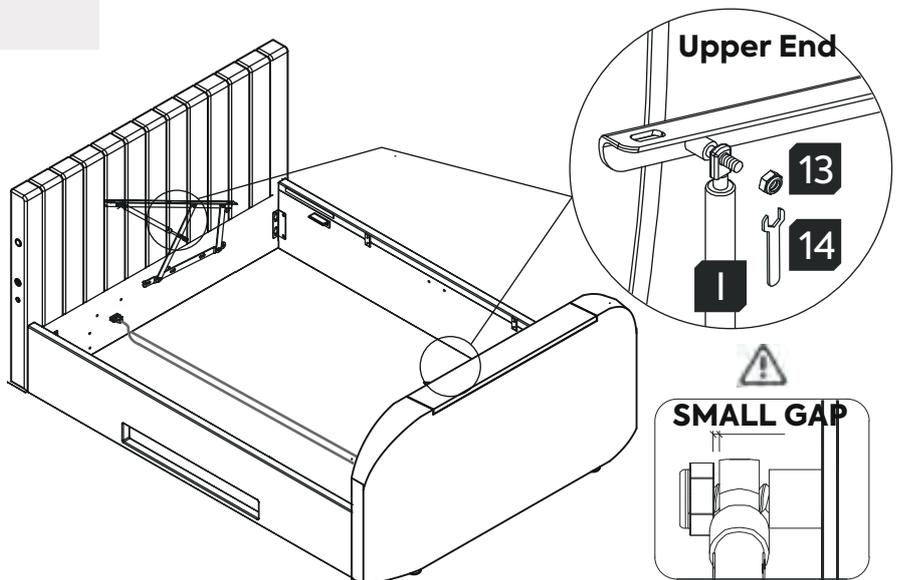

# 14

## Loosely fit both piston stems to the axles

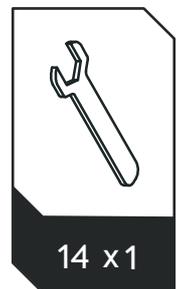

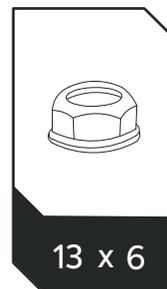

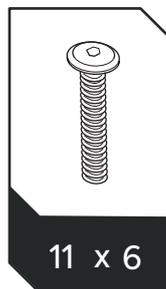

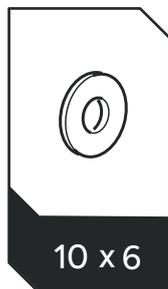

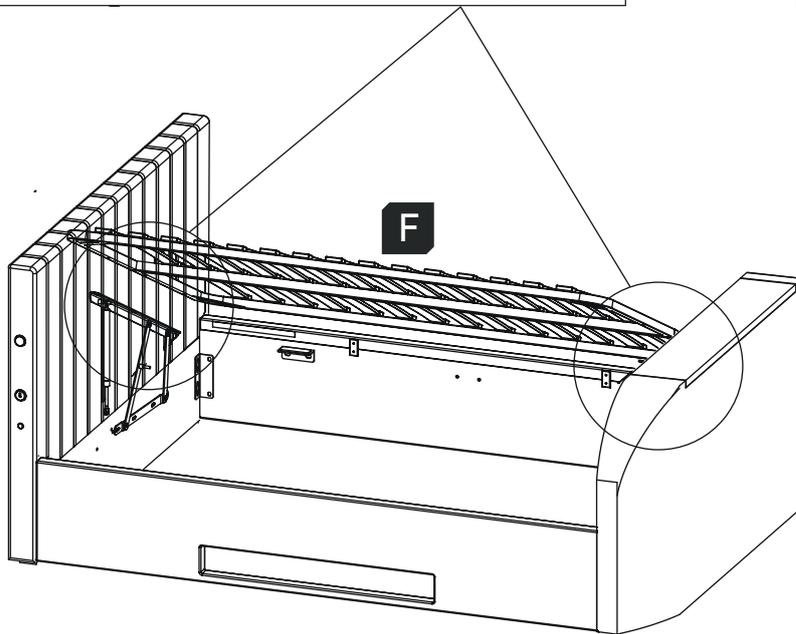

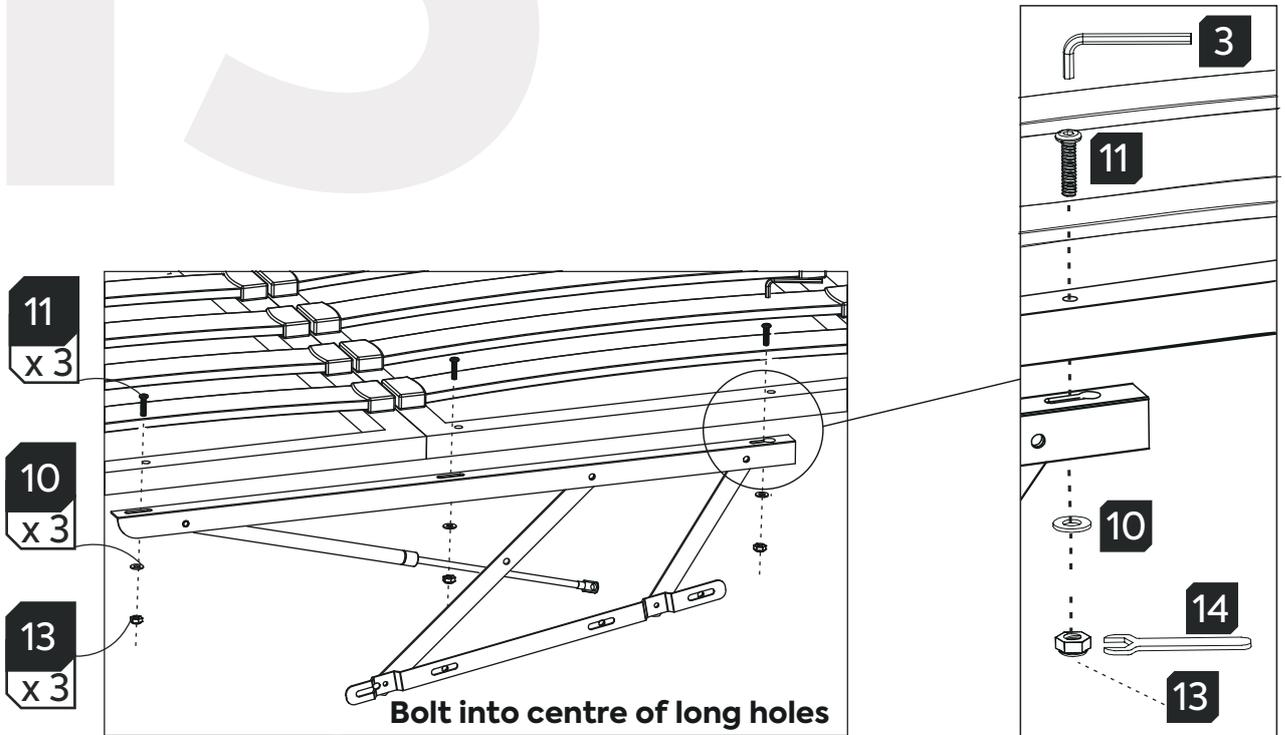

Please make sure the cylinder (largest diameter) is at the top.

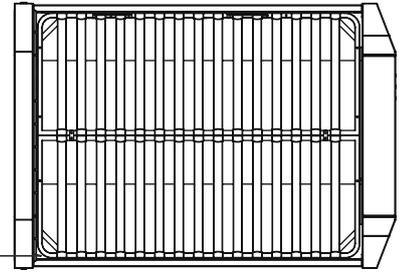

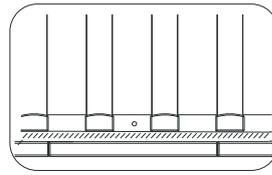

# 15

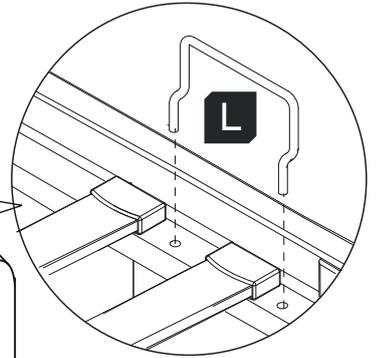

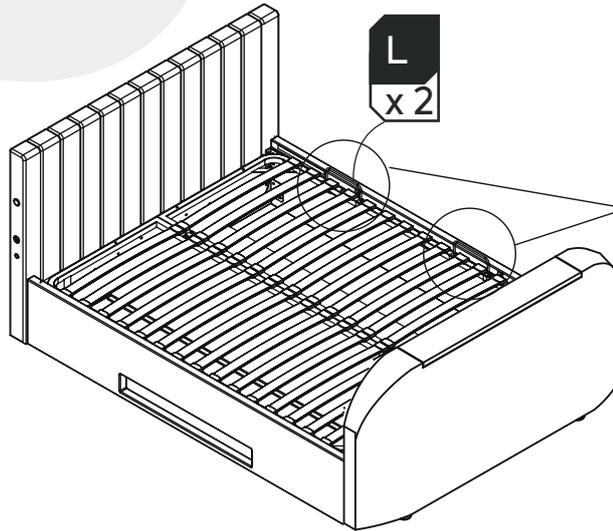

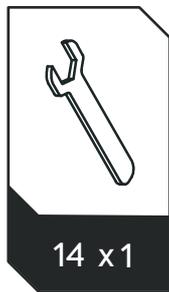

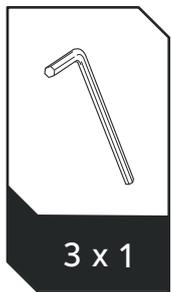

Lift up the support bars and fit the slat-frame positioning the frame so the gap around the edges is equal, then then tighten all nuts & bolts 100%.

# 16

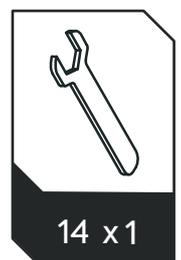

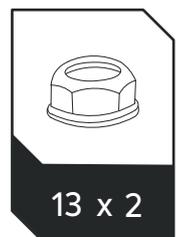

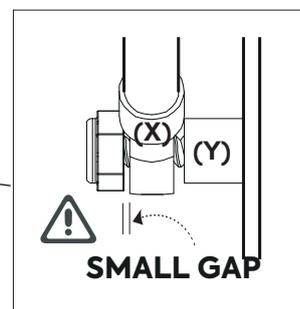

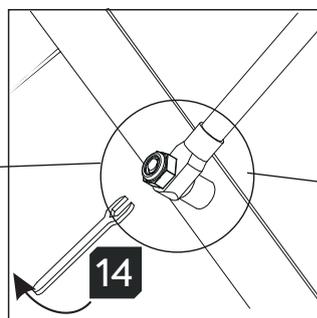

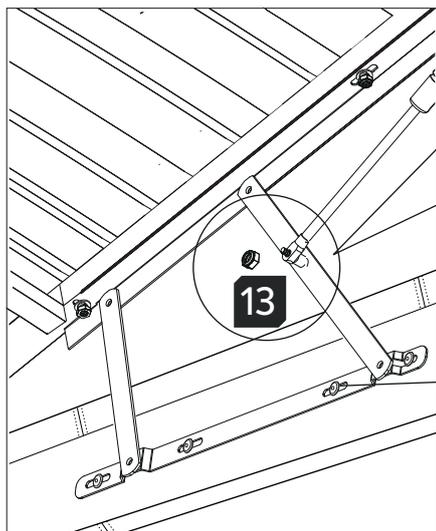

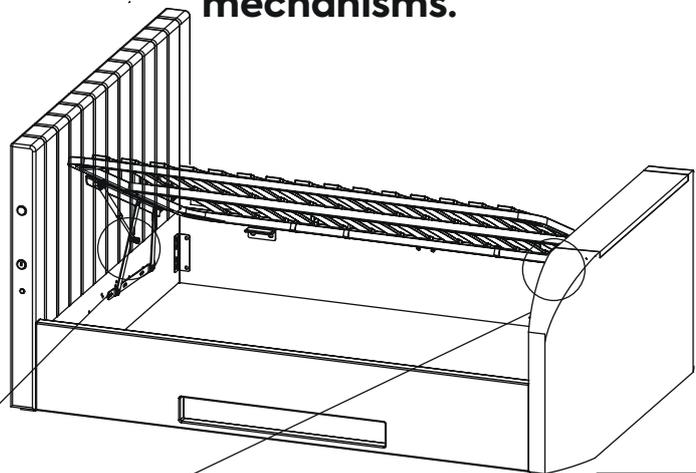

Fit the mattress stoppers to the slat-frame.

# 17

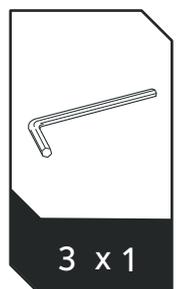

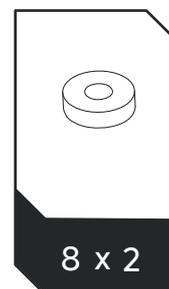

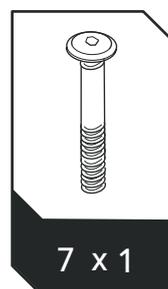

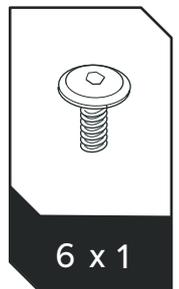

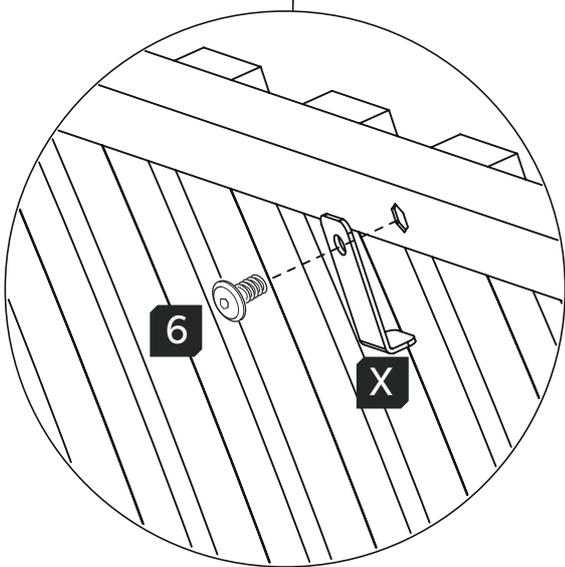

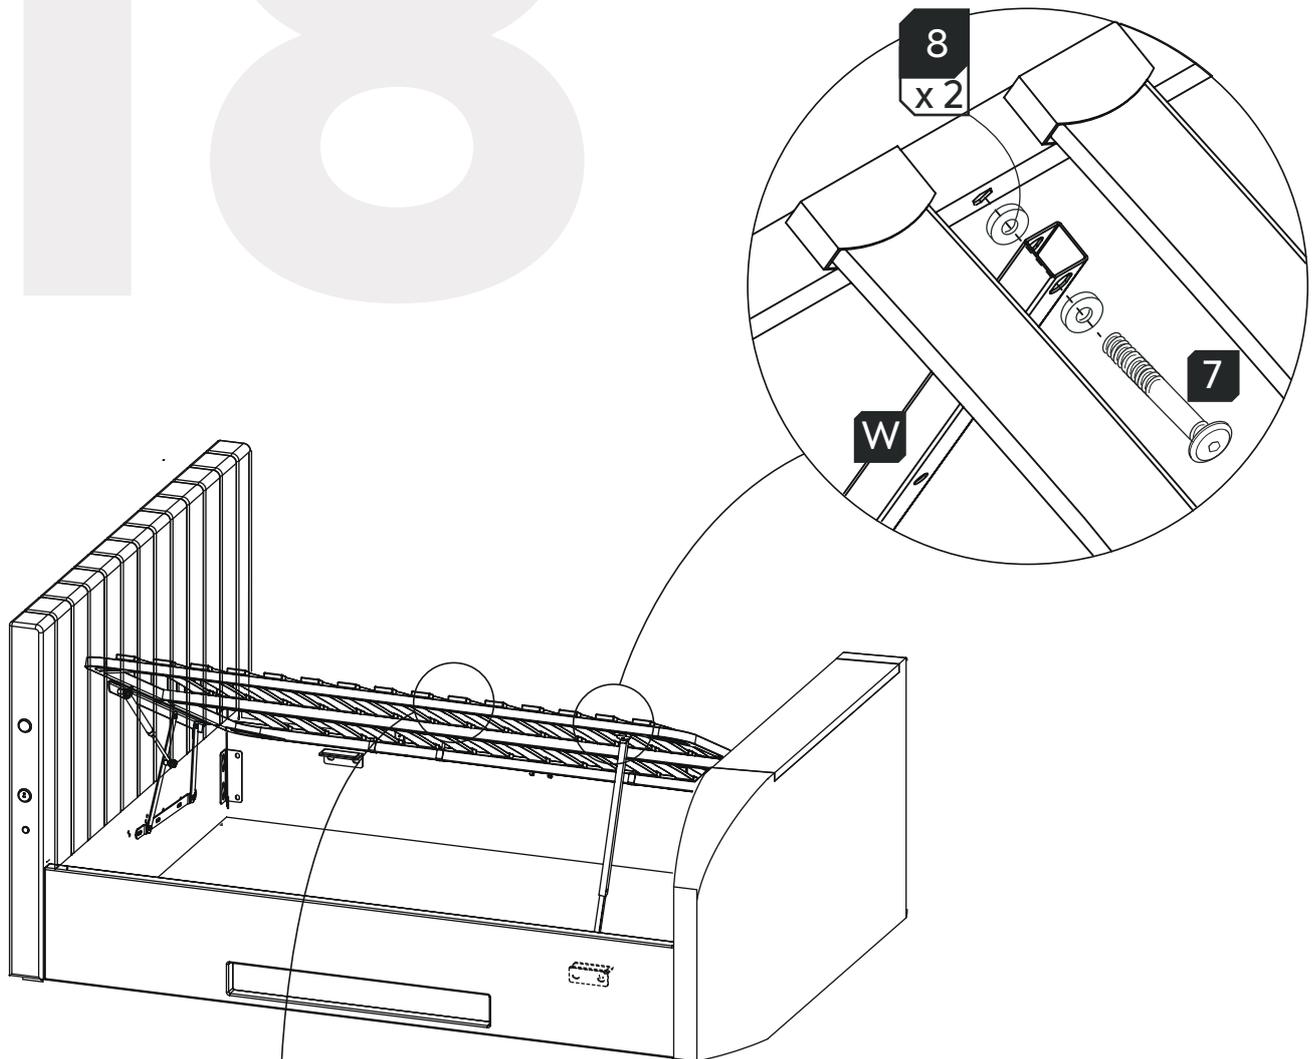

Fit the gas-lift pistons to the mechanisms.

# 18

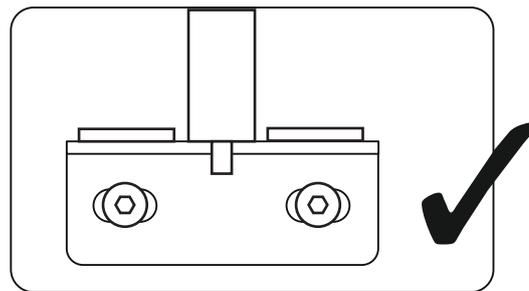

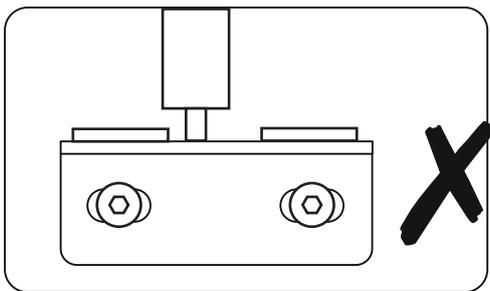

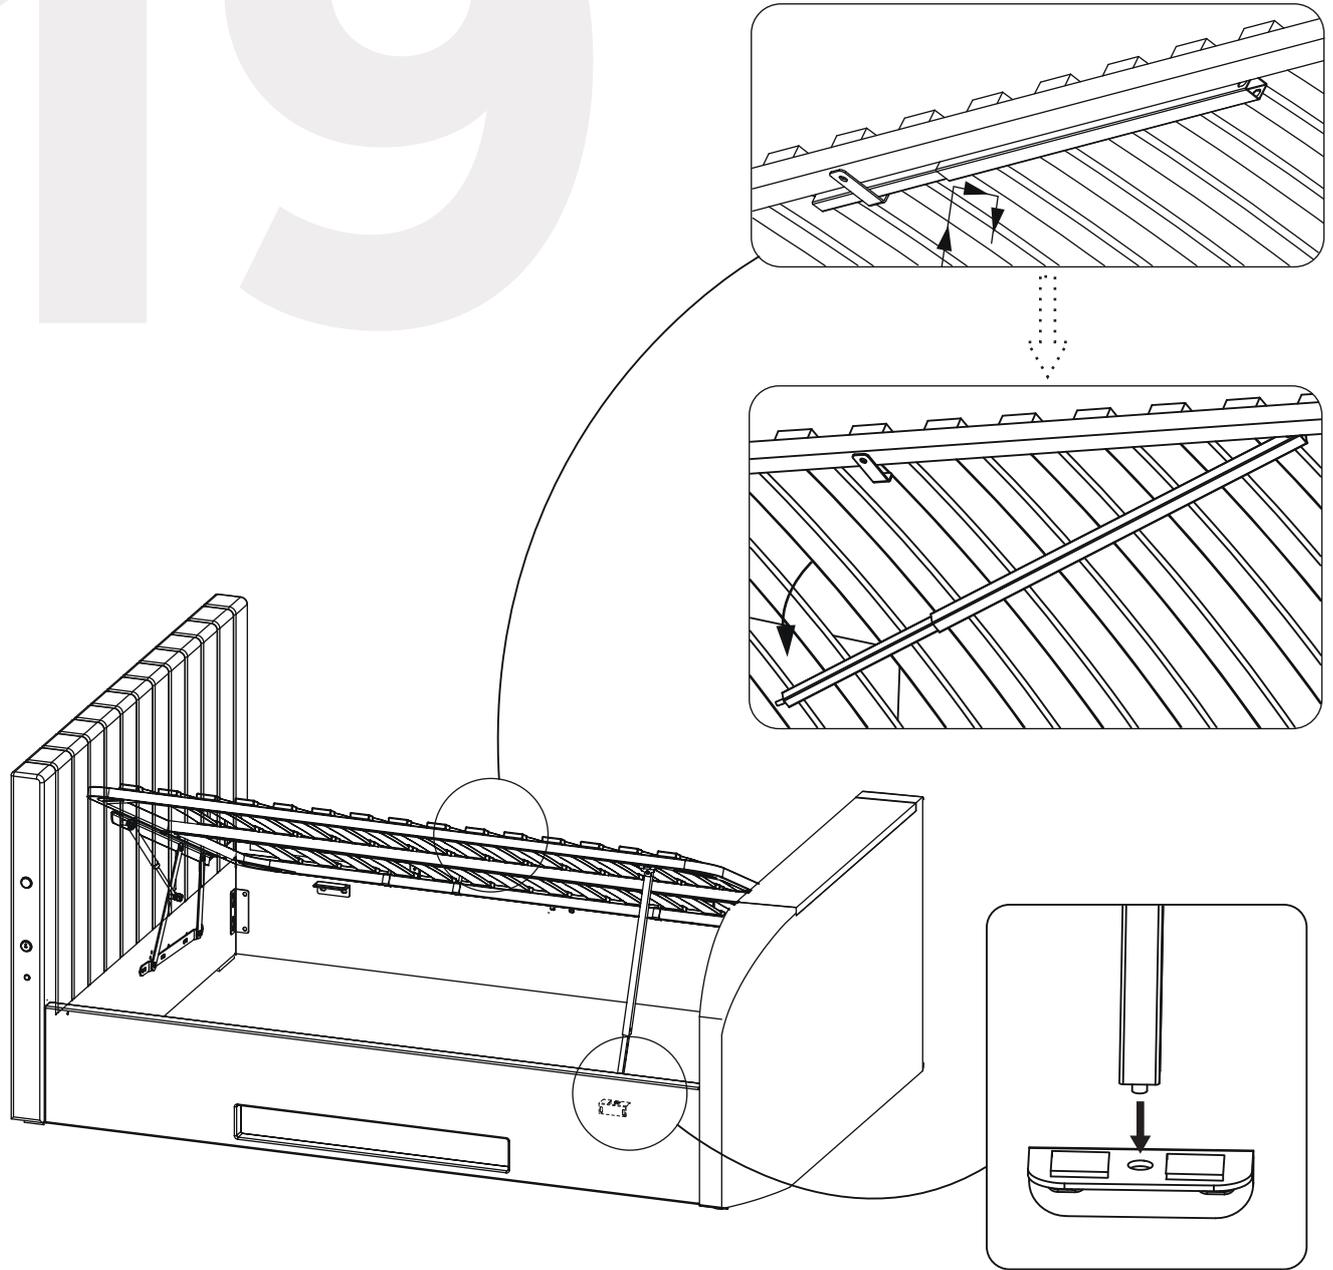

Unpack the contents of the Slat Frame Safety Stay Bar from it's carton - this is packed inside Pack 4.

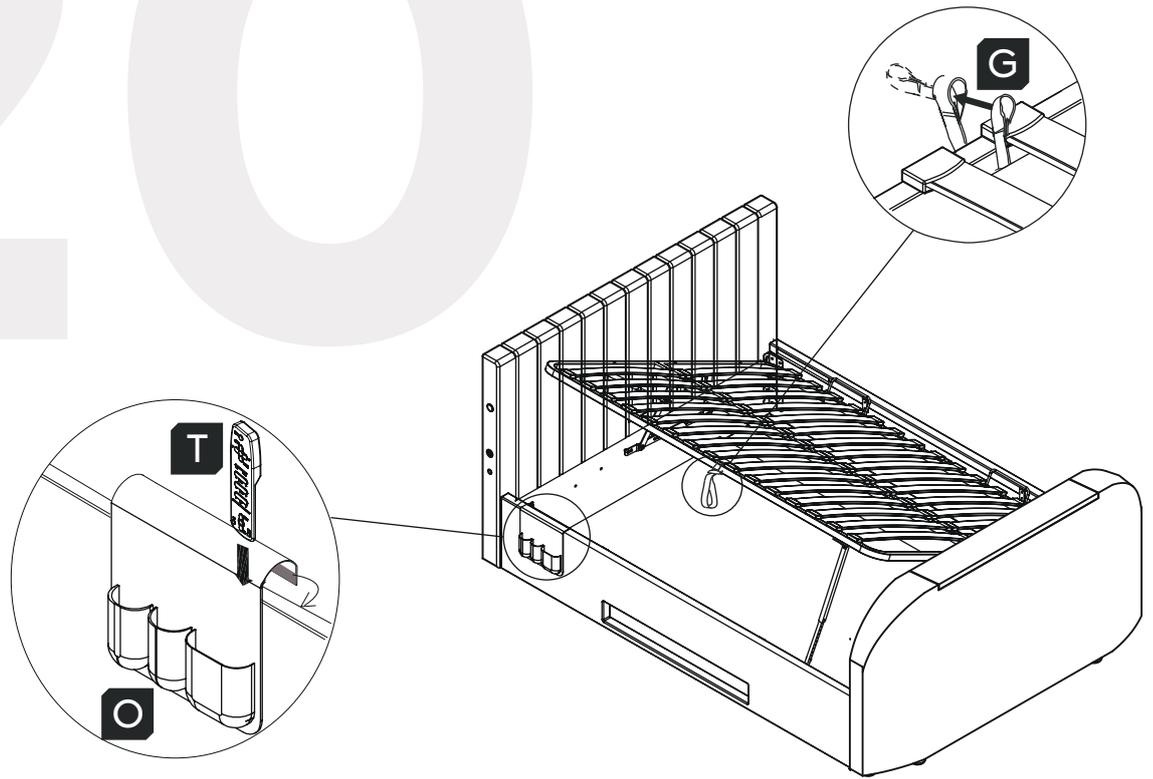

# 19

Setting the inner stem of the support bar (W), adjust the inner stem to the correct length.

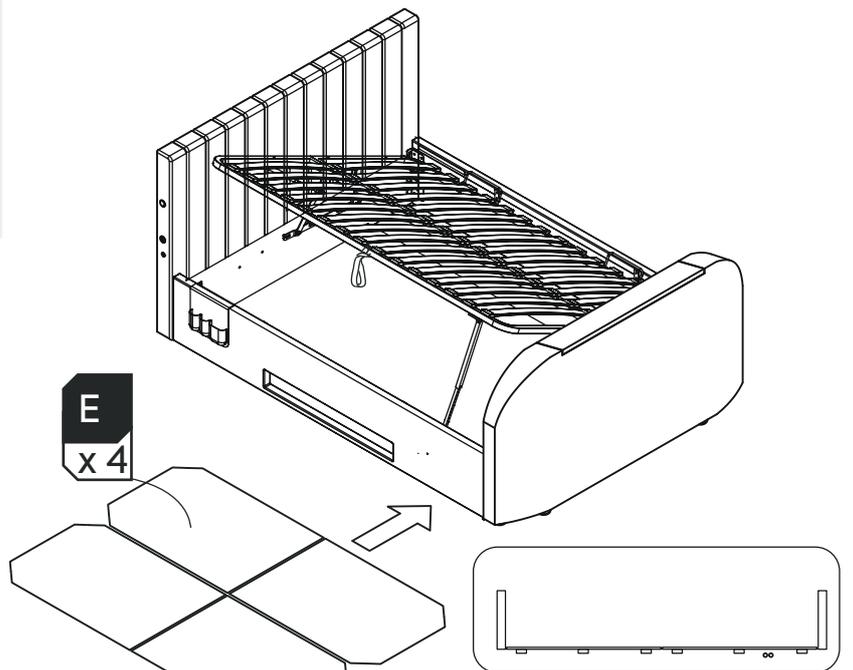

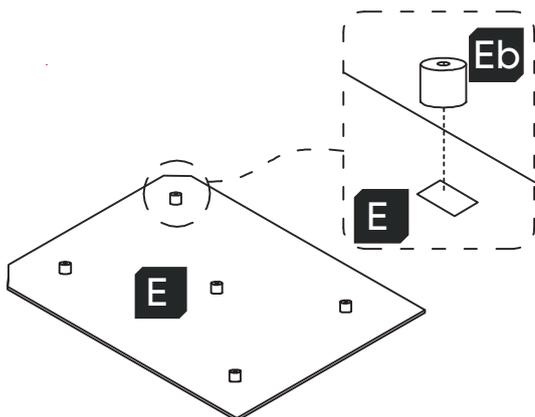

Please do not put bar (W) on surface of bracket (K), must put into hole on bracket (K).

# 20

# 21

With the bed in its final location, fitting the glides (Eb) to the velcro patches, then fit the storage base boards (E) being careful not to trap the cables.

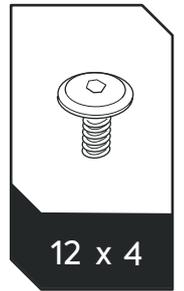

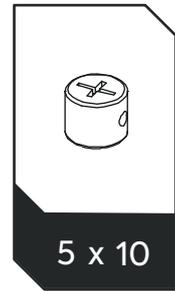

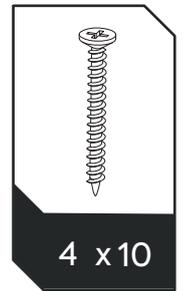

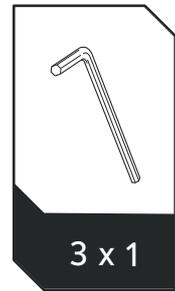

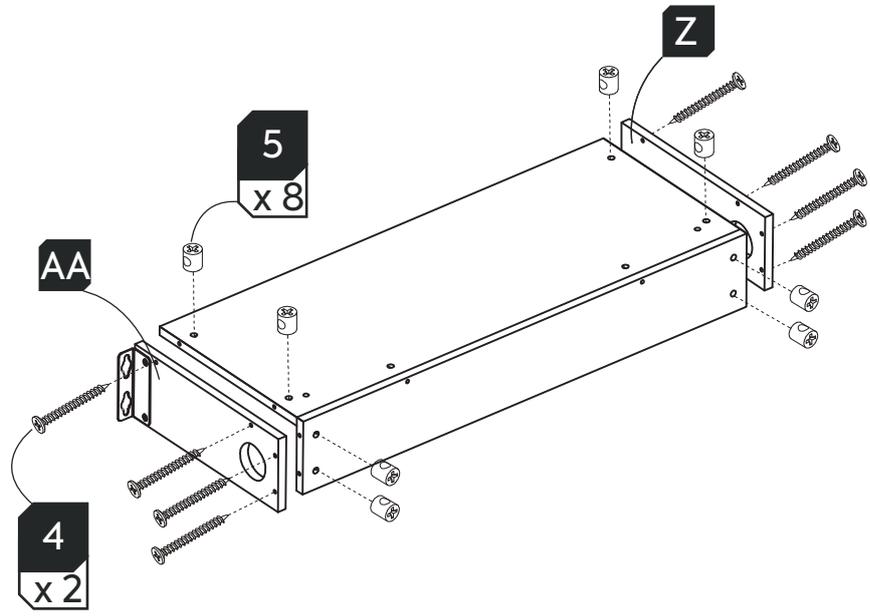

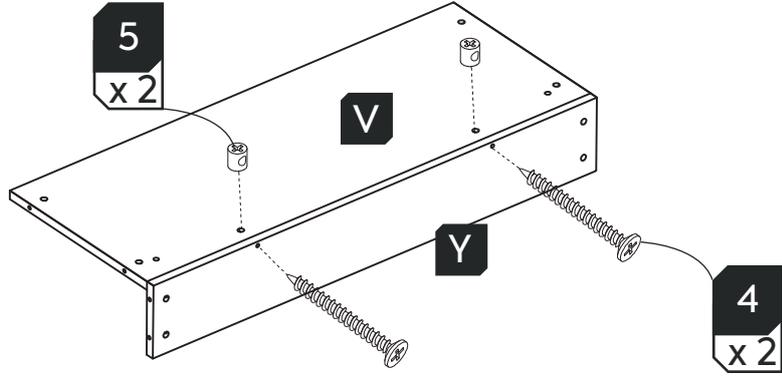

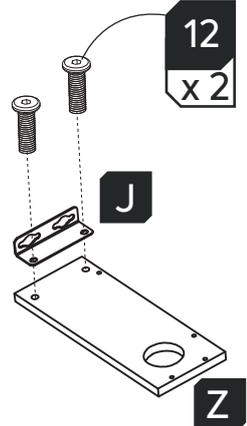

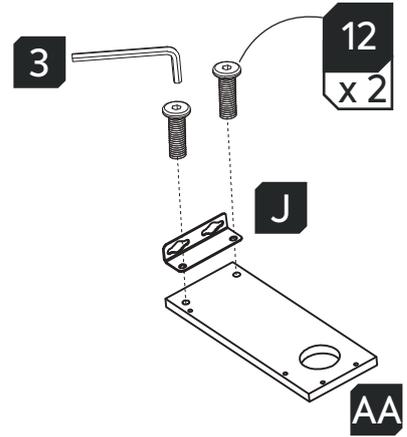

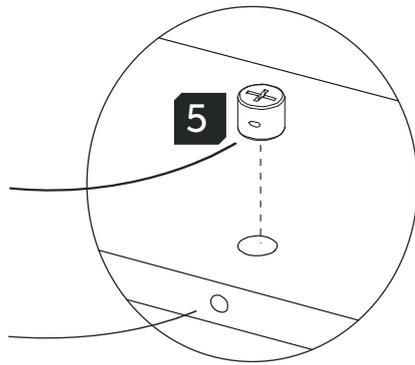

Main power lead & connection cable are on bottom of storage base boards.

# 22

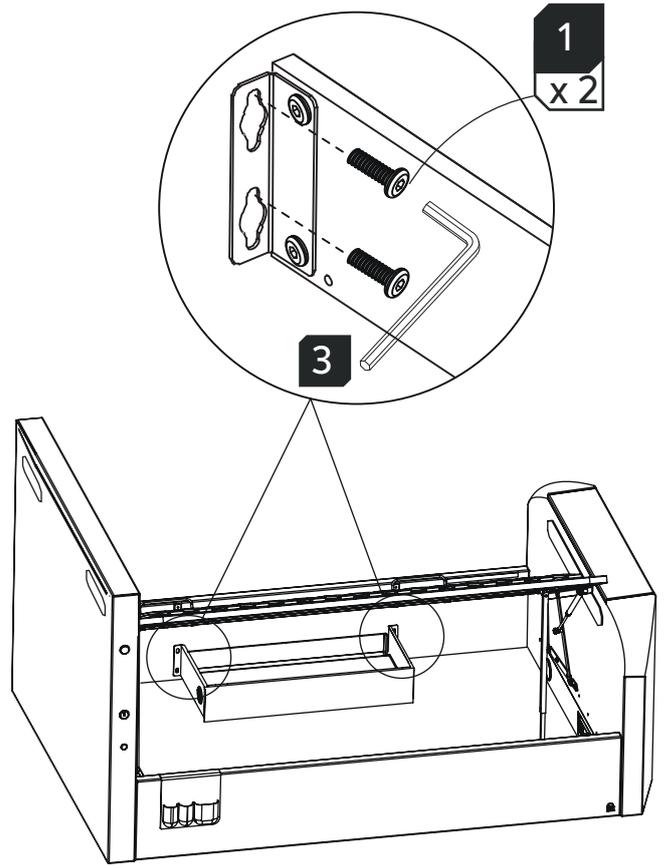

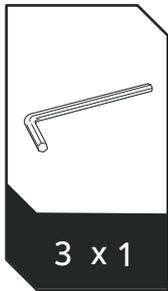

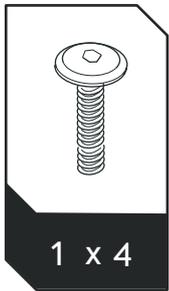

**IMPORTANT:**  
Make sure that the hole  
in the barrel nuts is in  
line with the hole in the  
panel edge.

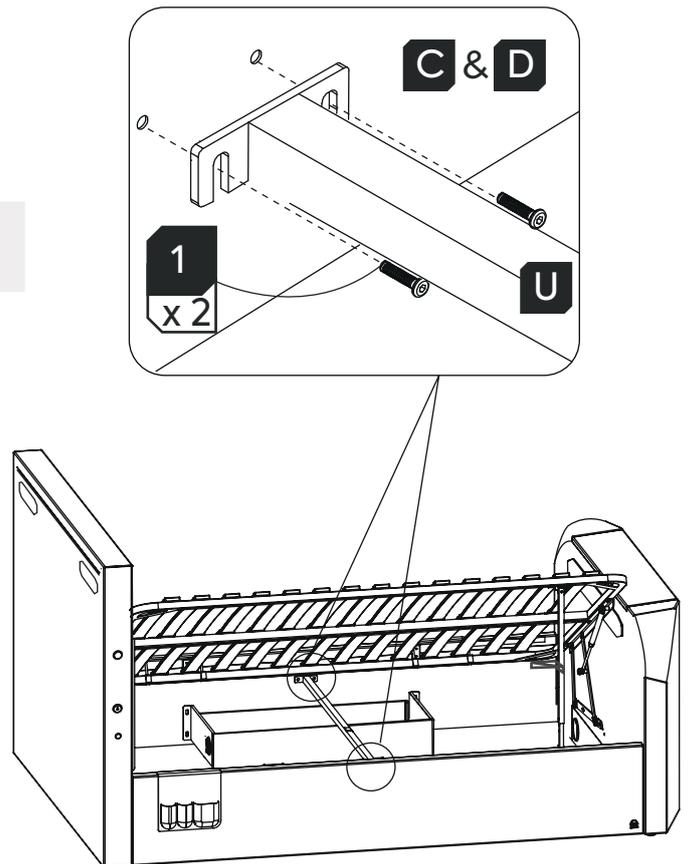

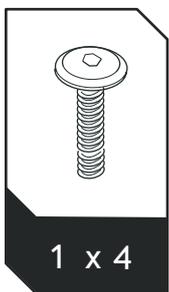

# 23

# 24

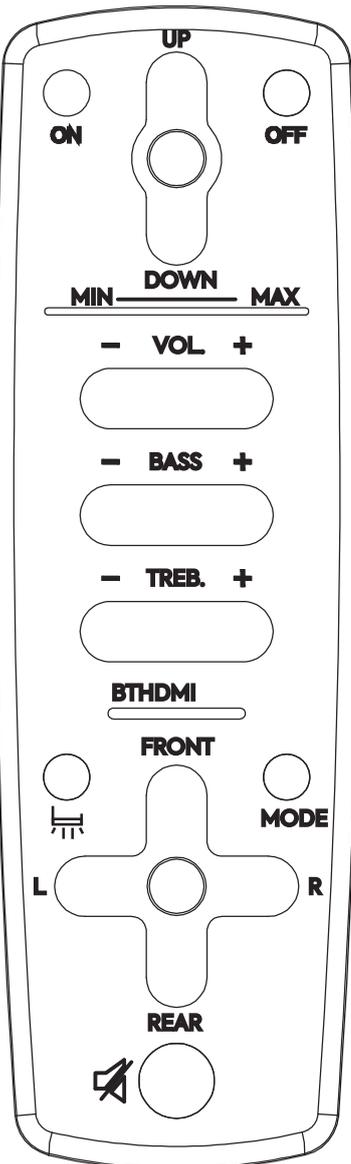

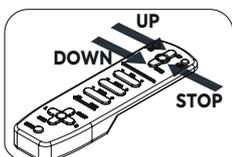

# Real 5.1 SS Audio System HDMI (ARC) amplifier system

Music Power total = 210 Watts.

Three front speakers x30W Two Rear speakers x30W One Sub Woofer x60W

## OPERATION GUIDE

<p><b>Remote Control (T)</b></p> 	<p><b>TURN AMPLIFIER ON or OFF.</b></p> <p>ON OFF</p> <p>1) Turn on the mains power to the TV Bed. 2) Press the Remote Control (RC) ON button for 2 seconds to synchronise and prepare the system, system voice shall say 'Power On'. 3) When finished watching or listening, press the OFF button for 2 secs.</p> <p><b>LIFT or LOWER THE TV.</b></p> <p>UP</p> <p>Press once and TV will rise to it's upper working position. Power to the TV will be connected automatically - operate the TV using it's Operation Guide. Press central button once and TV Lift will stop.</p> <p>DOWN</p> <p>Press once and TV will go down - as soon as the lower resting position is reached the power will be switched off to prevent overheating. <b>NOTE: BLUETOOTH WILL WORK NORMALLY WHEN TV IS UP OR DOWN.</b></p> <p>The same blue LED light bar is used to show steps for all the following controls: <b>VOLUME, BASS &amp; TREBLE.</b></p> <p><b>VOLUME CONTROL</b></p> <p>- VOL. +</p> <p>Use --- + or - --- button to increase or decrease the volume. Note that this control operates step by step and as it is adjusted, the blue LED light bar follows each step until full volume is reached, then the blue lights are all on.</p> <p>- BASS +</p> <p><b>BASS CONTROL</b></p> <p>Adjust the Bass attenuation - these buttons increase or decrease the lower frequencies of the sound.</p> <p>- TREB. +</p> <p><b>TREBLE CONTROL</b></p> <p>Adjust the Treble attenuation - these buttons increase or decrease the higher frequencies of the sound until the preferred sound level is achieved. Note: if higher frequency sound is reduced, the volume of the sound appears to be reduced too - this is normal.</p> <p><b>BALANCE CONTROL</b></p> <p>FRONT</p> <p>Press the button marked Front and the sound level will be higher at the footend than the headend of the bed.</p> <p>L R</p> <p>Press the L button and sound level will increase on the left Press the R button and sound level will increase on the right.</p> <p>REAR</p> <p>Press the button marked Rear and the level of the sound will be higher at headend than the footend of the bed.</p> <p>To bring back the sound to middle of the bed, press the central button to reset it.</p> <p>Press to turn the LEDs ON or OFF. Use the Neo-Motion touch controller to change the LED program.</p> <p>MODE</p> <p>Switch between Bluetooth and HDMI - Bluetooth will still play music when the TV Lift is down, parked in it's rest position.</p> <p><b>MUTE BUTTON</b></p>
<p>To Re-pair RC to system</p> 	<ol style="list-style-type: none"> <li>1) Disconnect all mains electric power to the bed, for at least 60 seconds.</li> <li>2) Press either UP or DOWN Button on TV Lift Remote Control and keep holding button down, simultaneously re-connect mains electric power to bed keeping button down for at least a further 5 seconds. The TV Lift unit receives the signal from the Remote Control and TV lift will begin to move UP or DOWN whichever button was pressed.</li> <li>3) Re-pairing is now complete.</li> </ol>
