Adjust the angle up and down according to preference.

\*Adjustable angle to 88°  
\*Do not use excessive force to adjust the mirror

### Rechargeable Lithium Battery Notice

If the product is not used for an extended period, please recharge once every other month to maintain functionality of the lithium battery.

- \* Please check local regulations for disposal of lithium battery powered products.
- \* Do not attempt to remove the battery or disassemble this product.

### Product Packing List

iMira LED Mirror x1  
USB charging cable x1  
Instruction guide x1

### General information

Product name: iMira LED Mirror  
Model NO.:EK5218R  
Dimensions: 17.6x4x26.1cm  
Input Voltage: DC 5V  
Input Current: 1A  
Rated Power: 3.5W  
Battery Capacity: 1800mAh

### Attention

1. Avoid direct contact with sunlight and moisture.
2. Use the USB charging cable provided with the product.
3. Do not twist the USB cable.
4. Do not hit or put excess pressure on the mirror.
5. Keep away from pets.
6. Not for use by children without adult supervision.
7. Please do not disassemble the product or attempt repair. Doing so will void the warranty.
8. Recommended for use with a Voltage 5V / 1A power adaptor. Continuous use with other types of power adaptors could cause product to turn off temporarily. In this case, fully charge the product and resume use.

### Warranty

Warranty covers electronic components such as chip, electrical board and LED malfunctions.

### Not Covered By The Warranty

1. Damages due to user mishandling or other than its intended use in a typical household activity.
2. Damages due to natural disasters such as fire, earthquake, flood and other Force Majeure events.
3. Damages including dents, scratches, and water damage due to transport handled by the user.
4. Any modification to the product, including disassembly or attempts to repair by the user.

\* All copyrights belong to EKO.

### Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

\* We apologize for any inconvenience caused by minor inconsistencies in these instructions, which may occur as a result of product improvement and development.
