Keep fittings out of children's reach. Keep children away from construction areas.
This product should only be used on firm level ground. Periodically check all fittings and re-tighten as necessary. Do not jump or stand on the bed. Avoid exposing the furniture to excessive heat or direct sunlight as this can cause damage to the materials and deterioration of the colour.

Do's

Do spend a short time reading through this leaflet before you start. When you are ready to start, make sure that you have the right tools and plenty of space. Due to the size of the product we recommend that it is assembled in the room intended for use. Unwrap all packaging materials and place the components on a clean surface to protect it from damage. We recommend that the packaging is used to protect light coloured fabrics and surfaces during assembly. Before beginning assembly carefully check that you have all the parts and fixings. Ensure the product is fully assembled as illustrated and all fixings are fully tightened before use. Check fixings regularly to ensure they remain tight. When moving your assembled bed, remove the mattress and bedding. Adjust the support leg to its shortest position. Then the bed must be lifted into position. Never drag the bed, as this can damage the legs. Once the bed is in the new position, readjust the support leg to be 5-10mm from the floor surface without the mattress. When in use the support legs will create the required support for the product. Never allow any kind of liquid to remain on your furniture. Absorption can cause materials to warp or finishes to de-laminate.

To clean your item, please use a vacuum or lightly brush clean. Never allow any kind of liquid to remain on your furniture. Absorption can cause finishes to de-laminate.

Missing parts

If you are missing any fixtures and fittings for your product. Please contact our customer service team on 0333 777 8999 and they will be happy to arrange for a replacement to be sent to you free of charge.
