### Do's

We suggest you spend a short time reading through this leaflet before you start.

When you are ready to start, make sure that you have the right tools and plenty of space.

Unwrap all packaging materials and place the components on a clean surface to protect it from damage, We recommend that the packaging is used to protect the surfaces during assembly.

Carefully check that you have all the parts before beginning assembly.

Due to the size of this product we recommend that it is assembled in the room intended for use.

Ensure the product is fully assembled as illustrated and all fixings fully tightened before use.

Wipe occasionally with a soft cloth slightly dampened with water. Then buff with a dry clean soft cloth.

Wood will mellow and change colour over time, we recommend that ornaments and items placed on the surface are moved regularly for the first few months to prevent uneven mellowing.

### Don'ts

Do not drag or pull your furniture.

Do not rub or scrub the surface when cleaning.

Do not use silicone based furniture polish. Silicone in furniture polishes can break down the finish.

Never allow any kind of liquid to remain on your furniture.  
Absorption can cause wood to warp or finishes to de-laminate.

Do not place hot items (e.g. hot drinks) directly on to the wood surface. Please make sure you use a placemat or coaster.
