

BEFORE YOU GET STARTED...

We're confident you'll love your gorgeous new Next furniture. However, it's worth making absolutely certain before you put it all together.

So, let's quickly run through these three steps:

1. COLOUR

Make sure you're happy with the colour
No need to unpack everything, just check the first component.

2. PROTECTIVE PACKAGING

If you're happy, then it's time to get opening! Start by laying everything out on the protective packaging – this will prevent anything getting scratched.

3. PARTS PAGE

Finally, double check you have all the pieces by referencing the parts page of the instructions.

TIPS FOR RETURNS

Not completely happy with the product? No problem.
We just need everything back in the original packaging, so follow the steps below and this will ensure a super-smooth returns process and no delay to your refund.

DO

- Check everything is there (the 'parts page' is a handy checklist).
- Pop all the loose fittings and fixtures into the packaging provided or tie them up in a plastic bag.
- Wrap all the big components back up in the original protective packaging.
- Close up the box and seal it securely (don't be afraid to use plenty of tape).

DON'T

- Leave anything assembled - all components should be dismantled and separately packed.
- Put loose fixtures and fittings straight into the box.
- Throw it back in the box carelessly – as it may get damaged.

Assembly instructions

BEFORE YOU START

Warnings

For domestic and outdoor use only.

We suggest you retain these instructions for future reference
Keep fittings out of children's reach and keep children well away from construction area.

Please periodically check all fittings and re-tighten as necessary
Please do not sit or stand on your table.

Unwrap all packaging materials and place the components on top of the carton box or on a clean floor to protect it from damage.

This product should only be used on firm, level ground. Make sure the legs remain in contact with the ground.

Use glass cleaner or soapy water for cleaning, do not use anything abrasive as this may damage the surface of the product.

Do's

We suggest you retain these instructions for future reference

We suggest you spend a short time reading through this leaflet before you start.

When you are ready to start, make sure that you have the right tools and plenty of space.

Unwrap all packaging materials and place the components on a clean surface to protect it from damage, We recommend that the packaging is used to protect the surfaces during assembly. Carefully check that you have all the parts before beginning assembly.

Please retain the assembly tools. You will need them in the future to re-tighten the bolts, or if you want to dismantle the furniture for storage.

Please make sure that the product is clean and dry before putting it into storage.

We recommended the use of furniture covers to protect your furniture when not in use. During severe weather conditions, please move your furniture inside.

To clean your items, please use mild detergent in warm water. Rinse with clean water and dry thoroughly. Do not use abrasive cleaners, strong detergents, bleach, acid or solvents on the frame parts.

To prevent damage occurring due to high temperatures, please ensure coasters or placemats are used and avoid placing glass directly onto the surface.

To prevent damage from sunlight by removing glass or other clear items when not in use. Wipe any water droplets from the table surface.

When cleaning polywood, use a damp cloth or chamois, with soap or washing-up liquid if necessary.

Don'ts

Do not stand on your chair.

Do not sit on the arms of your chair. (Note: arm chair only)

When moving furniture never drag the pieces across the floor, as this will cause damage to the joints.

Please do not leave your product outside when not in use.

During bad weather and winter months the product should be dismantled and stored in a cool dry place.

Do not place extremely hot or cold items directly on top of the surface.

Do not use silicone based furniture polish.

Do not use the surface as a cutting board.

When cleaning polywood, never use washing powder or other products containing scouring agents, as these may scratch the surface.

Number of people required to assemble

OUTDOOR WOOD EFFECT MATERIAL CARE INSTRUCTIONS

What is wood effect material

Wood effect material is designed for outdoor use and can withstand all types of weather. Wood effect material is made of a synthetic plastic material that looks and functions much like natural wood.

It is developed for those who prefer attractive and stylish garden furniture that does not require significant maintenance work. Wood effect material offers several advantages compared to natural wood. It is resistant to moisture and mildew, which means it is longer lasting. Wood effect material is a durable material and, unlike natural wood, excessive dryness will not lead to cracks and fissures.

To preserve the looks and finish of your outdoor furniture, please read and follow these guidelines:

1. To prevent damage from sunlight by removing glass or other clear items when not in use. Wipe any water droplets from the table surface.
2. Do not place extremely hot or cold items directly on top of the surface.
3. Do not sit or stand on the table surface.
4. Do not use the surface as a cutting board.
5. Cover the furniture with a weatherproof cover when not in use.

Regular Cleaning

When cleaning wood effect material, use a damp cloth or chamois, with soap or washing-up liquid if necessary.

Never use washing powder or other products containing scouring agents, as these may scratch the surface.
