DIINER CANDLES SAFETY INFORMATION

Remove all packaging before lighting. These candles are designed to liquify in use. Place on a suitable level surface away from draughts, flammable materials, and external heat sources such as a fire or radiator. Protect surfaces by placing in a suitable holder. Keep away from children and pets. Trim wick to 1cm and remove any debris from candle between burnings. For best results burn for 3-4 hours at a time. Never leave a burning candle unattended.
