### MULTI-SURFACE MATT EMULSION

2.5 LITRES e

Durable and washable, this multi-surface matt emulsion can be used on walls, ceilings, wood and metal\*.

#### SURFACE PREPARATION

Ensure all surfaces are clean, dry and free from dust, grease and dirt. Powdery or flaky surfaces should be sealed with a suitable primer. Glossy walls or previously painted wood and metal surfaces should be lightly sanded prior to painting. Avoid the inhalation of dust. Wear a suitable dust mask when dry sanding. Special precautions should be taken during the surface preparation of pre-1960's paint surfaces as they may contain harmful lead. For further advice contact our customer services. New plaster should be painted with a sealing coat of paint thinned with 10% water. Bare wood and metal should be prepared with a suitable undercoat or primer. Do not apply in very damp or humid conditions or if the room is below 10°C. \*Not suitable for oil-filled radiators.

#### APPLICATION

Stir thoroughly before use. Apply by brush or roller. 2 coats will usually be sufficient to give good coverage. In some instances such as painting over dark colours, additional coats may be required. To avoid colour variation when using more than one can, they should be mixed before painting. Coverage up to 12m<sup>2</sup> per litre depending upon the surface to be painted. Touch dry in 1-2 hours. Allow a minimum of 4 hours between coats. Hard dry overnight.

#### CLEANING

Remove as much paint as possible from brushes and rollers before cleaning with warm water. Some local authorities have special facilities for the disposal of waste paint. Never empty paint into drains or watercourses.

#### STORAGE

This product is water based and so must be protected from frost and extreme temperatures. To avoid the risk of spillage, always store and transport in a secure and upright position. Use within 6 months of purchase. The manufacturer cannot accept any responsibility for any deterioration of the product or packaging after this time.

#### CLEANING PAINT SURFACES

Painted surfaces can be cleaned with a sponge and water. Avoid excessive rubbing as this may leave a visible mark when dry. The use of harsh detergents to remove stains is not recommended.

#### SAFETY
