| Instructions for safe use            | Shake well before use. Sweep pen along lash line. Use the tip of the pen to create a thin, clean line. For a thick, bold line, position pen at an angle and apply with slightly more pressure. Build to intensify colour. Store horizontally for best performance.                                                                                                                                                                    |
