Cleanse hair as usual.</p> <p>Pre-shampoo: Perfect for loose curls and waves to counteract the dehydrating effects of shampoo. Apply from roots to ends on dry hair before cleansing. Leave in for 30 minutes or overnight. Wash and style as usual.</p> <p>Sealer: Perfect for LOC (leave-in conditioner, oil and cream) or LOCG (leave-in conditioner, oil, cream and gel) method. Use as a layer in between Curl Cream and Curl Defining Gel to seal and lock in moisture to help maintain hydration and definition after wash day. Apply 1 pump to each section.</p> <p>Anti-humidity: When dew points are high smooth a pump or two over the top of your hair to protect curls from excessive moisture in the atmosphere.</p> <p>When using oils in your routine, we recommend a deep cleanse 1-2 times per month with our Hydrating Hair Cleanser to prevent build up.</p> <p>Psst! Don't be tempted to wash any excess oil off your hands, this is an incredibly moisturising tool for your skin too!</p>
