Instructions for safe use	HOW TO APPLY CRAYON KHÔL • Enhance a smoky eye look by gently pulling down the lower lid and gliding the pencil along the inner part of the eyelid. • Define the upper lash-line staying as close to the roots of the lashes as possible. • Extend the line just past the outer corner of the eye to elongate the eye contour. PRO TIP If you are finding it tricky to create a seamless line, dot the pencil along the lash line and blend together with a brush.
