Instructions for safe use	<p>Apply generously and evenly 15 minutes before sun exposure to ensure no missed areas and sufficient coverage. Rub in well and allow to absorb completely before contact with textiles and hard surfaces.</p> <p>Applying less sunscreen will significantly reduce protection.</p> <p>The general recommendation for sunscreen is to re-apply frequently to maintain protection.</p> <p>P20 is designed to stay on the skin longer than average sunscreens, but if rubbed off after towel drying, contact games/sport or excessive sweating for example, then re-apply.</p> <p>Pay particular attention to vulnerable areas such as the ears, nose, shoulders, shins and feet.</p> <p>Do not spray directly onto the face. Avoid contact with eyes and mucous membranes. In case of contact with eyes rinse them immediately and thoroughly.</p> <p>Avoid spraying directly on infants and toddlers. Instead, spray the sunscreen into your palm first, then rub it onto the child.</p>
