## SCENTED DIFFUSER

A simple, effective and safe way to continuously fill your home with a delightful aroma.

Instructions for use:

Remove the bottle from the packaging and remove the bottle stopper, place the decor cap cover on the product if provided. Insert the reed sticks into the diffuser, then remove and rotate the reed sticks to allow the infused side to fill your home with aroma. For a more intense fragrance, remove the reed sticks from the liquid over a protected surface and rotate, reinserting into the bottle once a week.

Precautions for use:

Keep away from pets and children. To prolong the fragrance time, keep away from heat and avoid direct sunlight. Do not attempt to use a knife or sharpe object to remove the bottle stopper. Do not allow the diffuser to come into contact with furniture, fabrics, finished wood or enamel surfaces. In case of contact rise thoroughly with soap and water. Do not use if containers are cracked. Clean up immediately if any leakage occurs. Due to natural organic materials in the diffusers, discolouration can be seen, which is a normal phenomenon and does not affect the use. Do not allow the diffuser to come into contact with skin or eyes. In case of contact rinse with water immediately. This product is not edible. If accidentally swallowed, seek medical advice immediately.

Contain citral . May cause an allergic skin reaction.

Warning

May cause an allergic skin reaction.

If medical advice is needed, have product container or label at hand. Keep out of reach of children.

Wear protective gloves.

IF ON SKIN: Wash with plenty of water

Take off contaminated clothing and wash it before reuse.

Dispose of contents/container in accordance with local regulations. Contains p-menthan-8-yl acetate; 3,7-dimethyl-1,6-octadien-3-ylacetate (= linalyl acetate); 3,7-dimethyloctan-3-ol; 2-methoxy-4-(2-propen-1-yl)-phenol

(eugenol); geraniol; Eucalyptus oil; 3,7-dimethyl-2,6-octadien-1-ol (=nerol); (R)-p-mentha-1,8-diene; 4,11,11-trimethyl-8-methylenebi-cyclo[7.2.0]undec-4-ene(= Caryophyllene); Terpenes and Terpenoids, lemon-oil; 3,7-Dimethyl-2,6-octadien-1-ylacetate(cis & trans isomers). May produce an allergic reaction.
