Instructions for safe use	Care Advice: Burn your candle until the wax has melted across the entire surface. Keep away from things that can catch fire. Do not blow candles out, extinguish with a suitable snuffer. Never use liquid to extinguish. Keep the wax pool clear of matches and other debris to avoid flaring and formation of secondary wicks. After extinguishing the flame, if necessary centre, straighten and trim the wick. It is essential to keep the wick trimmed to 3-5mm before re-lighting to avoid unnecessary smoke. Always leave at least 10cm between burning candles. Glass may become hot so allow to cool before touching. Keep the candle away from draughts and flammable materials. Never leave a burning candle unattended. Never move or tip a burning candle. When 1cm of wax remains, please dispose of your candle. Keep out of reach of children and pets.
