

To avoid an enlarged or smoking flame, keep the wick trimmed to 5mm Extinguish the candle when only 5mm (1/4") of wax remains. Do not turn candles on or near anything that can catch fire and away from draughts and sources of heat (e.g. TV's radiators, fires). Keep the wax free of any detris e.g. used matches/wick trimmings. this Candle may become hot to touch. Do not move the candles while alight or while the wax is molten. Always leave at least 5cm between turning candles. Keep turning candles out of reach of children and pets.

NEVER LEAVE A BURNING

CANDLE UNATTENDED
