If a battery has been ingested, or there is a possibility one might have been ingested, please seek medical attention and inform the medical authorities that you suspect battery ingestion.

It's not always clear when a child has swallowed a button battery as there are no specific symptoms. However, they might:

- Cough, gag or drool;
- Seem to have a stomach bug or virus;
- Vomit;
- Complain of pain in their stomach, chest, or throat;
- Appear tired or sluggish; and
- Lose their appetite

Since the signs aren't obvious, it's important to keep a close eye on loose, used, or spare button batteries in your home, as well as the products that contain them.

This reed diffuser is an ideal solution to fragrance any room in your home. Simply place the reeds within the oil and arrange to form an appealing display. The reeds will absorb the fragrance oil and diffuse it into the air to fill your room with a delicate aroma. For more intense fragrance or to refresh the scent, remove the reeds from the oil, turn the reeds over and reinsert into the vessel with the oil soaked ends now exposed to the air.

For optimum levels of fragrance, remember to turn your reeds once a week.
