About this product:

Contains 2 x CR2032 batteries.

Batteries must be replaced by an adult.

To replace batteries, use a screwdriver to remove the screw from the battery compartment.

Insert 1x CR2032 (3 volts) button cell battery.

Slide the On/Off switch to the ON position to activate and slide it to the OFF position to deactivate when not in use. Non-rechargeable

batteries are not to be recharged. Do not mix old and new batteries. Batteries must be inserted correctly, observing polarity (+/-). Exhausted batteries are to be removed from the item.

The supply terminals are not to be short-circuited. Remove batteries when not in use for long periods of time. If the battery compartment does not close securely, stop using the product and keep it away from children. Store in a cool, dry place.

Dispose of batteries properly in accordance with local regulations.

Product Warnings:

If a battery has been ingested, or there is a possibility one might have been ingested, please seek medical attention and inform the medical authorities that you suspect battery ingestion.

It's not always clear when a child has swallowed a button battery as there are no specific symptoms.

However, they might:

- Cough, gag or drool
- Seem to have a stomach bug or virus
- Vomit
- Complain of pain in their stomach, chest, or throat;
- Appear tired or sluggish
- Lose their appetite

Since the signs aren't obvious, it's important to keep a close eye on loose, used, or spare button batteries in your home, as well as the products that contain them.
