

Hello Hello!  
This new-fangled Reed Diffuser  
Thingy provides a brand new way  
to enjoy the Splendid Scents  
created by Lily-Flame.

The reeds absorb the fragrance  
and then diffuse it into the air  
continuously. You can set it  
up once and forget about it.  
Just place the reeds into the  
bottle and allow them to absorb  
the scent. After an hour or two,  
turn the reeds upside down to  
let the other end to do the same.  
That's it! Every so often, if you  
fancy an extra burst of fragrance  
just turn the reeds upside down  
again and they'll work even better.

One of the great things about  
Our Reed Diffusers is that,  
because there's no flame,  
you can leave them unattended.  
But it's not all beer and skittles  
you know- Do make sure to  
keep it out of the reach of  
children, animals and naked flames.  
and however tempting it may be,  
Do not drink the scent! We hope you  
enjoy it. If you'd like to get  
in touch, do feel free!
