INSTRUCTIONS FOR SAFE USE

Fragrance: Use one or two sprays around your neck and on your pulse points then allow to dry without rubbing.

Shower Gel: Use every day, massaging into hair and skin to produce a scented foam before thoroughly washing off.

Lotion: Squeeze a small amount of the gel into your palm and apply to one area of your body at a time, paying special attention to areas prone to dryness such as hands, legs, elbows, and knees. Apply as often as you like, but using the body gel right after a shower or bath will help the skin retain more moisture.
