

TSA COMBINATION LOCK INSTRUCTIONS

The default combination is 0-0-0. To set your own personal combination, follow these steps:

1. Set the dials to the current combination.
2. Using a pen, push the reset button (A), then release.
3. Set your desired combination by turning the dials (B), for example 8-8-8.
4. Slide button (C), allowing it to spring back to its original position.
5. The lock can now be opened by setting the dials to your new combination, and sliding button (C) in the direction of the arrow.

You have now finished setting your personal combination. Please be sure to memorise your new combination.
