MEASURE THEM UP

Getting their school uniform before the new term is one thing, making sure that it fits is a whole other drama – fear not, we're here to help.

Age is only an approximation of size. The height of your child gives a much better indication of which size to buy.

Chest

Place tape close up under the arms, measure chest at the fullest part

Waist

Measure around natural waistline

Hips

Measure around the fullest part of the hip

Collar size

Measure around the base of neck where shirt fits

Inside leg

Measure from crotch to hem position (Garment leg length may vary depending on style of trouser)

Height

Without shoes, with feet together and flat on floor, measure height level from top of head to the ground
